Cell Cycle Analysis
with the New Personal Flow Cytometer

Mr. Wai SO

Bio-Gene Technology Ltd.

All are Welcome!

The analytical power and versatility of today’s laser-based flow cytometry systems have unlocked the mysteries of cell biology and empowered entirely new fields of research. As a result, flow cytometry has become a staple of modern laboratories around the world. Innovations in ease of use reflected in the BD Accuri C6 make these powerful capabilities more accessible to a new generation of flow cytometry users. Doublet discrimination and cell cycle analysis experiment with Accuri C6 will be demonstrated in the workshop.

Science is hard.
Flow cytometry should be easy.
