MEDVPN2 Installation Procedures for Windows 10
Create a "MEDVPN2" icon for connection (to be done once only)

1. Click **Network Settings** icon located at the right bottom on desktop display screen.

2. Click **Network and Sharing Center**.

3. Click **Set up a new connection or network**

4. Select **Connect to a workplace** and then click **Next**
5. Click **Use my Internet connection (VPN)**

6. In the next window, enter the following:
   - Enter `medvpn2.hku.hk` in Internet address box
   - Enter `MEDVPN2` in Destination name box
   - Click **Create**
7. Go to Network Connections, **right click MEDVPN2 and then click Properties**

8. Select **Security** Tab. Choose **Layer 2 Tunneling Protocol with IPsec (L2TP/IPSec)** under Type of VPN. Then click **Advanced settings** button
9. In the next window, enter the following:
   - Select **Use preshared key for authentication**
   - Enter **hkuvpn** in Key box
   - Click **OK**

![Advanced Properties dialog box](image)

10. Click on the **Network Settings** icon located at the right bottom of your Desktop followed by clicking **MEDVPN**.

![Network Settings icon](image)

11. Select **MEDVPN2** and click **Connect**.
