MEDVPN2 Installation Procedures for Windows Vista

Create a "MEDVPN2" icon for connection (to be done once only)

1. Click Windows Start button, and then Control Panel.
2. Click Network and Internet

3. Click Network and Sharing Center
4. Click **Set up a new connection or network**

5. Select **Connect to a workplace** and then click **Next**
6. **Optional Step** If you have connections setup already, ignore them and click **No**, create a new connection, Then Click **Next**

7. Click **Use my Internet connection (VPN)**
8. In the next window, enter the following:
   - Enter medvpn2.hku.hk in Internet address box
   - Enter MEDVPN2 in Destination name box
   - Check Don’t connect now; just set up so I can connect later
   - Click Next

9. In the next window, enter the following:
   - Enter your HKU Portal UID in User name box
   - Enter your HKU Portal PIN in Password box
   - Check Remember this password if you want to store the password
   - Click Create
10. Click **Close**

![Image of closed connection]

You need to set up an Internet connection before you can connect.

11. Click **Manage network connections** in Network and Sharing Center Windows

![Image of network settings]
12. Right click MEDVPN2 and then click Properties

13. Select Networking Tab
14. Choose **L2TP IPSec VPN** under **Type of VPN**. Then click **IPsec Settings...** button.

15. In the next window, enter the following:

   - Select **Use preshared key for authentication**
   - Enter **hkuvpn** in **Key** box
   - Click **OK**
16. Click **OK** to complete the setup
