MEDVPN2 Installation and Connection Procedures for Windows XP

Create a "MEDVPN2" icon for connection (to be done once only)

1. Click Windows Start button, and then Control Panel.
2. Click Network Connections (or click Network and Internet Connections, then click Network Connections).
3. Click Create a new connection or New Connection. If the window "Location information" appears, select "Hong Kong SAR".

4. Click Next.
5. Select **Connect to the network at my workplace** and then click **Next**

6. Select **Virtual Private Network connection** and then click **Next**
7. Enter **MEDVPN2** in **Company Name** box and then click **Next**.

8. Enter **medvpn2.hku.hk** in **Host name or IP address** box, and then click **Next**.
9. Check **Add a shortcut to this connection to my desktop** and then Click **Finish**

10. Click **Properties** button
11. Click **Security** Tab

![Security Tab Image]

12. Click **IPSec Settings...** button

![IPSec Settings Image]
13. In the next window, enter the following:

- Check **Use pre-shared key for authentication**
- Enter **hkuvpn** in Key box
- Click **OK** button

14. Click **Networking** Tab; then choose **L2TP IPSec VPN** under **Type of VPN**; Click **OK** button to complete the setup
