

The University of Hong Kong  
Centre for Cancer Research (CCR)  
Seminar / Lecture / Workshop List 2009

No.	Date	Speaker Name			Affiliation	Title	Notes
		Title	First Name	Last Name			
1	Feb 06, 2009	Dr	Camie	Chan	Department of Cell Bioogy and Human Anatomy, School of Medicine, Unviersity of California	Interferon-producing killer dendritic cell: a potential target for anti-viral and anti-tumour immunotherapy	
2	Feb 26, 2009				Co-organized by Department of Surgery, Centre for Cancer Research and Public Health Research	Joint Symposium: Translating Cancer Genetics into Clinical Practice and Public Health	
3	Mar 04, 2009	Prof	Z	Yin	Dean, School of Life Sciences, Nankai	JNK Signaling in CD8+ Function and Tumor	
4	Mar 06, 2009	Prof Dr Prof	Geroge SW US SY	Tsao Khoo Leung	Department of Anatomy, HKU Department of Pathology, HKU Department of Pathology, HKU	New Core Imaging Facilities and their Applicatins in Research and Education	
5	Mar 30 - Apr 3, 2009					Courcher ASI on Biomarkers for Early Detection of Cancers: <i>Technological Advances &amp; Clinical Readiness</i>	Department of Surgery
6	Apr 17-19, 09	Prof	Cindy	Lam (PI)	Head, Family Medicine Unit, Department of Medicine, HKU	UICC International Cancer Technology Transfer Training Workshop on Quality of Life Assessment in Oncology	Jointly with Public Health Resarch Centre
7	May 22, 2009	Dr	P. Andrew	Futreal	Co-director of the Cancer Genome Project, Wellcome Trust Sanger Institute	Somatic mutations in human cancer: Genome-wide characterization of structural rearrangements and on to whole genome sequencing	Jointly with Department of Pathology
8	Jul 13, 2009	Dr	Lee	Zou	Assistant Professor, Department of Pathology, Harvard Medical School.	Sensing and Signaling DNA Damage by the ATM and ATR Checkpoints	
9	Jul 28, 2009	Dr	Steven	Chackowicz	Vice President, VisualSonics	Preclinical Imaging in Small Animal for Life Science Research	
10	Aug 07, 2009	Dr	John	Kleijne	Senior Vice President and General Manager, Eastern Europe, Middle East and Asia VisEn Medical B.V.	In-vivo Fluorescence Quantitative Tomography Imaging System and Its Application	

The University of Hong Kong  
Centre for Cancer Research (CCR)  
Seminar / Lecture / Workshop List 2009

No.	Date	Speaker Name			Affiliation	Title	Notes
		Title	First Name	Last Name			
11	Aug 17, 2009	Prof	Scott W.	Burchiel	Associate Dean for Research, DeSantis Endowed Chair for Pharmacogenomics, Health Sciences Center, College of Pharmacy Associate Vice President for Institute for Advanced Studies, University of New Mexico	Role of Environmental Signaling in Breast Cancer	
12	Aug 23-29, 2009		various			Stem Cell Course	jointly with SRT D & R, SRT Healthy Aging, SRT
13	Sep 07, 2009	Prof	Eric W	Lam	Professor of Molecular Oncology, Division of Surgery, Oncology, Reproductive Biology and Anaesthetics Faculty of Medicine Imperial College London, UK	Role of the FOXO-FOX M1 Axis in Life, Death and Drugs	
14	Sep 25, 2009	Prof	Kit	Lam	Professor of Medicine, Chief, Division of Hematology & Oncology University of California, Davis	From Combinatorial Chemistry to Nanomicelles to Cancer Targeting	
15	Oct 12, 2009	Prof	F. Stuart	Foster	Professor and Canada Research Chair in Ultrasound Imaging, Sunnybrook Health Sciences Centre, Department of Medical Biophysics, University of Toronto, and VisualSonics Inc. Toronto	Micro-ultrasound: Technology and Applications in the World of Biomedical Research	
16	Oct 15, 2009	Dr	Patrick	Ng	Stanford University School of Medicine	Cell-Free Production of Novel Immuno-modulating Fusion Proteins	
17	Nov 4-6, 2009					16th Hong Kong International Cancer Congress & 6th Annual Meeting Centre for Cancer Research	

The University of Hong Kong  
Centre for Cancer Research (CCR)  
Seminar / Lecture / Workshop List 2009

No.	Date	Speaker Name			Affiliation	Title	Notes
		Title	First Name	Last Name			
18	Nov 04, 2009	Dr	Peter W	Laird	USC Epigenome Center, University of Southern California	Origins of Aberrant Cancer DNA Methylation Profiles	
19	Nov 04, 2009					Joint Retreat - Shantou University Medical College and Centre for Cancer Research	
20	Nov 16, 2009	Prof	Vincent	Yang	R. Bruce Logue Professor and Director, Division of Digestive Diseases. Department of Medicine Professor, Department of Hematology and Medical Oncology Director, Emory Epithelial Pathobiology Research Development Center Emory University, School of Medicine Atlanta,	The Role of Kruppel-Like Factors (KLFs) in the Pathogenesis of Intestinal Neoplasia	Jointly with Department of Pathology
21	Nov 24, 2009	Prof	Benjamin	Tsang	Director, Reproductive Biology Unit, Department of Obstetrics & Gynaecology, Professor, Department of Obstetrics & Gynaecology and Cellular & Molecular Medicine, University of Ottawa	The Role and Regulation of p73 in the Control of Che	Jointly with Department of Obstetrics & Gynaecology, Department of Pathology
22	Nov 24, 2009					Inaugural Symposium on Stem Cell and Regenerative Medicine Programme
