Message from the Dean

Ten years ago in 1997, Hong Kong and China reunited and became one family. Around that time, Dr Cheng Yu Tung, with a view to strengthening the tie between Hong Kong and China, endowed upon us the important mission to launch the Dr Cheng Yu Tung Fellowships programme, which aims to promote academic and expertise exchange between Mainland China and Hong Kong through clinical attachment, research and management training undertaken by selected academics from Mainland China.

With only ten years of history, I feel very proud that the Dr Cheng Yu Tung Fellowships has already made many contributions in nurturing a total of 159 academics from the Mainland, and giving them the chance to be exposed to the advanced clinical and research environment in Hong Kong. I am pleased that the seeds we sowed have flourished, and the training we provided has inspired and enlightened the Fellows, enabling them to excel in their professional development.

There is no easy way to success. Only those with a clear vision, a defined goal, an unflinching heart and a proactive attitude will get a ticket to the top. Our Fellows, armed with these essential qualities, and coupled with a vision to strive for excellence and a mission to bring better clinical services to Chinese people, have gone through a stringent selection process to win a chance to receive training in our Faculty. The vigorous training however is only the beginning to them because they are never satisfied and are always seeking new challenges. These young talents are exactly what our nation needs to achieve milestones in medical development. With our Fellows acting as the bridge between some of the most prestigious institutions in the Mainland and our Faculty, I am excited to see more and more new ideas being provoked and initiatives being triggered, which will contribute to the betterment of medical services in China, Asia and the World.

The achievements of our Fellows must be attributed to Dr Cheng Yu Tung, who has perceived a great demand for high quality healthcare in China and identified the unlimited potential of Mainland academics. I am sure that our Fellows will bear a grateful heart to Dr Cheng while continuing their pursuit of knowledge and

advancement. On behalf of the Faculty, I must thank Dr Cheng for his generosity, vision and patriotism. We will make the best use of our vast clinical experience and research excellence to sustain and magnify the accomplishments of the Fellowships programme in return to Dr Cheng's trust and support.

Again, to Dr Cheng, I send my whole-hearted gratitude. To our Fellows, I wish you all success in your career.

A handwritten signature in black ink, appearing to read 'RHS Liang', with a stylized flourish at the end.

Professor RHS Liang
Acting Dean of Medicine

創辦人鄭裕彤博士獻辭

本人於1997年開始贊助香港大學醫學院設立「鄭裕彤博士獎助金」目的在培育國內醫護專才，迄今轉瞬便十年了。過去十年來在每年這個時候，都有一批從國內各地的醫科大學及護理機構選拔的醫療教育專業人員到香港來接受專科研究、臨床實習等指導和進修。他們在香港見習的時期雖然有限，但當我每次接觸到新的一批學員時，都會鼓勵他們把努力積取的新知識和新經驗，在學業完結後返回工作時再在當地發揚光大。我用植物的種子作比喻，假如每位學員都能把某一科研範疇所獲致的心得回去後在當地配合實際的環境與支持開拓施展，就好比種子在沃土傳播繁植，那麼國內各地區和各城鎮的醫療教育工作者以及附屬醫院的病人便能從不斷的醫護技術的研討與交流中得到實際的獲益，改善廣大人民醫療的狀況。

我用這種獎助方式鼓勵醫護專業人員從他處可得的科研方法與成效去增進及改良本身所處環境不同的醫療實效，其實在八十年代已經開始，而我最大的願望是給予國內醫療教育層面（醫科大學）的科研人員向外地取經，吸收別處的所長，與本身工作單位的需要配合改善。

香港的醫療教育制度從十九世紀已奠下優良的基礎。近數十年來中港兩地的醫療研討交流日趨蓬勃。我所贊助的方式僅像微塵或一顆孢子，但是我希望各位認同，這些孢子在良好的環境下，它發展的趨勢是可以形成龐大的力量的。因此這一獎助金計劃在過去十年耕耘的過程裡，本人非常感謝香港大學醫學院的同人努力不懈，而他們努力所得的成果是有目共睹的！

HONG KONG
CINE

Message from the Chairman of the Committee of Management

The Dr Cheng Yu Tung Fellowships programme was established in 1997 to support young clinical academics of Mainland China to participate in medical research, clinical attachment and hospital management in the Faculty of Medicine, The University of Hong Kong. Since its inception, the Fellowships programme has received wide recognition in universities and hospitals within Mainland China. As a member of the Committee of Management, I have witnessed the enthusiasm and eagerness for pursuit of knowledge among Mainland academics and the growing opportunities for clinical and research collaborations between the Mainland and Hong Kong.

As illustrated in this publication, many of the Dr Cheng Yu Tung Fellows have excelled in their achievements both professionally and personally. Not only did they impart their newly acquired knowledge to their fellow doctors and researchers at their home institutions, they also developed new branches of research and clinical services at their institutions and obtained sizable research grants to reach new heights in their work. Many of them have even been promoted to senior positions in their home institutions.

The generosity of Dr Cheng to establish the Fellowships has created synergism between the Mainland and Hong Kong in both medical research and clinical service. While Mainland academics gain exposure to advanced research techniques and state-of-the-art facilities in our Faculty, we also enjoy the stimulating intellectual exchange thereby created. Apart from financial support to the Fellows, it is gratifying that Dr Cheng devotes his time to meet the Fellows every year, to show his care and to give his encouragement.

I would also like to take this chance to thank Dr YK Sun, the donor's representative, for his continuous contribution to the Fellowships programme. He has been involved in every aspect of the programme, from screening the applications to interviewing the shortlisted applicants. His devotion to the Fellowships programme is evidenced by the valuable advices and suggestions that he has given throughout

the years for improvement and promotion of the programme.

I cannot emphasize more how I am grateful to the dedication of both Dr Cheng and Dr Sun, without which the Fellowships programme could not have been so successful. On the other hand, I dare not forget to express my appreciation to some other parties who have helped to ensure seamless implementation of the Fellowships programme ever since its establishment. They include Professor John CY Leong, who had served as the Chairman of the Committee of Management from 1999 to 2003, as well as other members of the Committee. The assistance of colleagues in the Peking Union Medical College and Shanghai Medical College of Fudan University in arranging interviews for the applicants, as well as officials from the Education, Science and Technology Department of the Liaison Office of the Central People's Government in the HKSAR in facilitating the entry-permit applications of the Fellows are also greatly appreciated.

Serving as the Chairman in the Committee of Management allows me to meet many talented young researchers, especially during the interviews in Beijing and Shanghai. Their ambition and determination have convinced me that the Dr Cheng Yu Tung Fellowships programme will continue to nurture more and more brilliant minds in the medical field. I am confident that our Fellows will treasure their achievements under this Fellowships programme and commit themselves to excellence in their research and clinical works.

Professor YS Chan

*Chairman
Committee of Management
Dr Cheng Yu Tung Fellowships*

Message from the Donor's Representative

It has been my privilege to be appointed by the Faculty of Medicine as a member of the Dr Cheng Yu Tung Fellowships Committee of Management since November 1997.

I would like to thank Dr Cheng for entrusting me with the undertaking to represent him in this Fellowships and participate in the administration of the funds and the process of awarding Fellows from the People's Republic of China.

In each of the past ten years, I have been working with a dedicated team from the Faculty chaired by Professor John Leong during his tenure with the Faculty and Professor YS Chan. I have been deeply impressed by the utmost fairness and integrity of the process of awarding Fellows by the Committee whose other members are Professor YL Lau, Professor LC Chan, Professor KF So and Professor Karen Lam.

Every winter, either in Beijing or Shanghai, I have had the opportunity of accompanying 2 other professors, including Professor John Leong, Professor YS Chan, Professor Paul Tam and Professor YL Lau, to conduct interviews of candidates that have been shortlisted by the Committee. This exercise has been extremely important and has enabled accurate selection of the right and capable scholars for attachment to the relevant Departments of the Faculty. I must congratulate the Faculty that this process has been conducted to the highest possible standards. I would like to make use of this opportunity to express my sincere thanks to the Peking Union Medical College of Beijing and the Shanghai Medical College of Fudan University of Shanghai for their generous collaboration to provide the venues and facilities for these interviews.

It is gratifying to note that all of the scholars who had been awarded the Fellowships have been doing very well after they returned to their sponsoring institutions, and have maintained ongoing academic exchanges with the Faculty. This is undoubtedly a very worthwhile contribution from the Dr Cheng Yu Tung Foundation.

It has been a very delightful and educational experience for me to play a part in this

Fellowships, having also made friends with some young and bright scholars from all areas of China. Last but not the least, I would like to thank the secretariat for their dedication and enthusiasm towards the administration of this Fellowships.

Dr YK Sun

10th Anniversary of Dr Cheng Yu Tung Fellowships From Concept to Achievements

The Concept

In 1997, the Dr Cheng Yu Tung Fellowships programme was established with a generous donation from Dr Cheng Yu Tung, a business leader and philanthropist based in Hong Kong, with a heart set towards Mainland China and vision set on the world. Taking advantage of the Medical Faculty's leading position in the training of medical doctors, basic medical and clinical scientists in Hong Kong and the nearby region, the objective of the Dr Cheng Yu Tung Fellowships is to promote academic and expertise exchange between Mainland China and Hong Kong, through clinical attachment, research and management training undertaken by selected academics from the Mainland in the Medical Faculty of The University of Hong Kong (HKU).

The Fellowships scheme supports 4 categories of awards, viz. Visiting Professorships, Visiting Fellowships, Research Fellowships and Research Assistantships. In view of the increasing interest and demand from Mainland academics for advancement in clinical knowledge and skills, awards for 3-month clinical attachment has been introduced to the Fellowships scheme since 2004/2005.

The first intake of fellows started their visit/training in the 1998/1999 academic year. Since then, the Fellowships programme has supported 159 academics from major medical institutions and their affiliated teaching hospitals in the Mainland to receive training in Hong Kong.

The Objectives

The ultimate goal of the Dr Cheng Yu Tung Fellowships is to enhance the quality and effectiveness of the clinical service, scientific research and medical education in the Mainland. More specifically, the Fellowships programme aims to contribute to the provision of advanced clinical, research and management training on the specialties of the Fellows' interests and talents which their home institutions plan to develop. Fellows are expected to impart to their colleagues the knowledge and skills attained during their training upon they return to their home institutions, and be proactive in the development and advancement of their relevant fields. They are also expected to make use of the academic links with the hosting Departments to promote collaborative research between their home institutions and The University of Hong Kong.

Categories of Awards

The Dr Cheng Yu Tung Fellowships scheme supports 4 categories of awards:

1. Visiting Professorship (VP) provides support for qualified basic science or clinical academics at professorial level from tertiary institutions in the Mainland to undertake clinical attachment, management or research training in the Medical Faculty. The duration of the Visiting Professorship is normally 2 weeks.
2. Visiting Fellowship (VF) provides support for senior administrators at managerial level from medical schools or hospitals in the Mainland to undertake clinical attachment or

management training in the Medical Faculty. Attachment at various hospitals in Hong Kong or the Department of Health of the HKSAR Government, or its sub-divisions, may also be arranged. The duration of the Visiting Fellowship is normally 4 weeks.

3. Research Fellowship (RF) provides support for candidates possessing a PhD degree and currently working as researchers in recognized medical tertiary institutions in the Mainland to undertake research training or clinical attachment in the Medical Faculty. Fellows are expected to collaborate with Faculty members in research projects. The duration of the Research Fellowship is normally 12 months.
4. Research Assistantship (RA) provides support for candidates possessing a basic medical degree from recognized tertiary institutions in the Mainland to undertake research training or clinical attachment in the Medical Faculty. Fellows are expected to have potential in pursuing higher degree studies, and be able to assist in medical research activities. The duration of Research Assistantship is normally 6 months.

Applicants for Research Fellowship and Research Assistantship who wish to focus on improving their clinical skills rather than in research will be considered for the 3-month clinical attachment award.

The Fellowships programme normally supports 2 awards each for VP and VF, 4 awards for RF, and 8 awards for RA every year. The number of awards in each category may vary each year depending on the quality of the applicants.

Emoluments for the fellows include passages between their home institutions and Hong Kong as well as honoraria/living allowances. Book allowances and research subsidies are also provided to Research Fellows and Research Assistants. The amount of emoluments is reviewed from time to time. Other benefits include accommodation arranged by the donor as necessary with travelling allowances, primary medical care and accident insurance provided by the University.

Management of the Fellowships

A Committee of Management (Committee) of the Fellowships has been established to govern the Fellowships, which comprises

- a) A Faculty member appointed by the Faculty Board (Chairman);
- b) Dr Cheng Yu Tung or his representative;
- c) Dean of Medicine, or his representative;
- d) A representative from clinical departments;
- e) A representative from pre-clinical departments; and
- f) Co-opted Member(s) where appropriate.

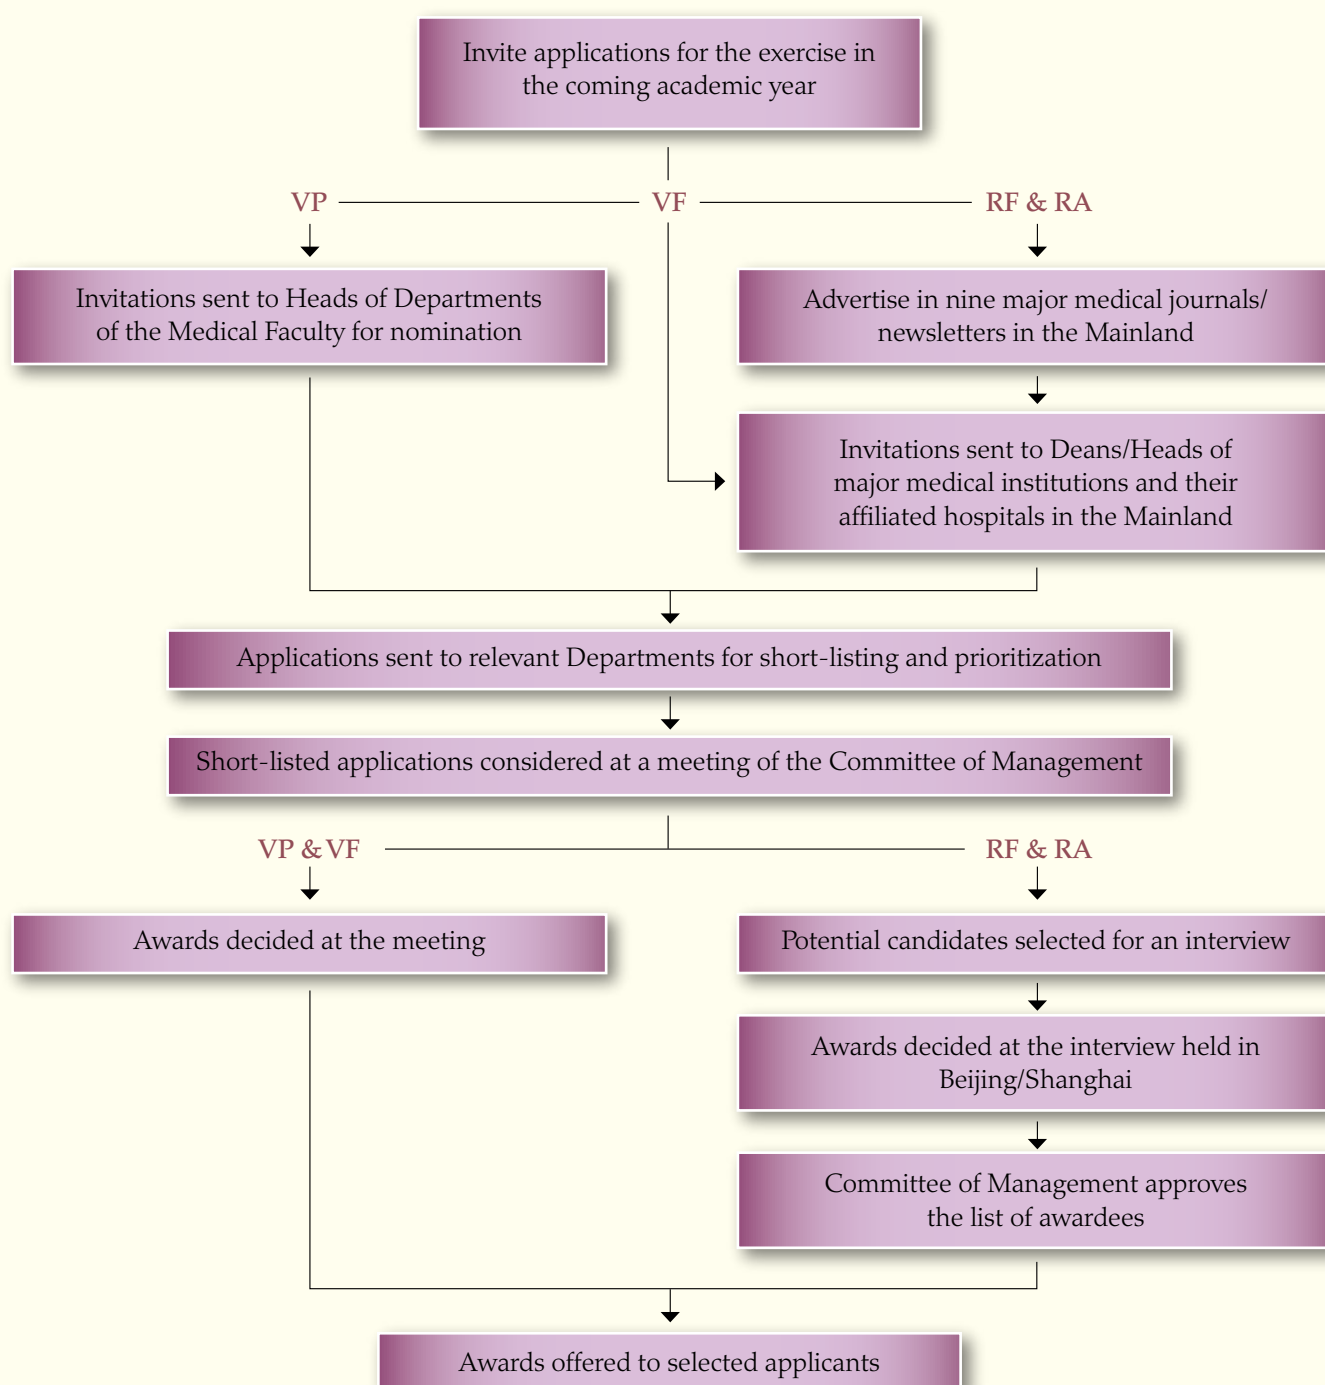

Responsibilities of the Committee include administration of the donation, selection and interview of candidates, monitoring the Fellows' progress and reporting to the Medical Faculty Board.

Annual Receptions are also arranged for the Fellows and Faculty members in the Medical Faculty to meet and thank Dr Cheng and Dr YK Sun, and for the Committee to update them with the progress of the Fellowships. The Dean of Medicine, members of the Committee of Management, officials from the Education, Science and Technology Department of the Liaison Office of the Central People's Government in the HKSAR, Heads of the hosting Departments, Supervisors of the Fellows, ex-Fellows, as well as other interested academic staff are also invited to attend.

Recruitment and Selection of Fellows

The recruitment and selection procedures are conducted annually. The Visiting Professorships are open to academics in tertiary medical institutions in China nominated by Heads of Departments in the Medical Faculty of HKU, whereas Visiting Fellowships, Research Fellowships and Research Assistantships are open to staff members nominated by Deans/ Heads of designated tertiary medical institutions in China. The list of designated medical institutions would be renewed by the Committee of Management from time to time.

The competition for the various awards has been very keen and a vigorous selection procedure as follows has been employed. In order to meet the research development needs of the Fellows' home institutions, applicants are required to consult their Heads/Deans for the proposed training plans.

The interview panel is composed of Dr YK Sun, the donor's representative, the Committee Chairman (Professor JCY Leong, the Founding Chairman, followed by Professor YS Chan, the current Chairman) and representative of Dean of Medicine (Professor YS Chan from 1998 to 2001, Professor PKH Tam from 2002 to 2003, and Professor YL Lau since 2004, in their capacity as the Associate Dean, Research). Interviews are held in the Peking Union Medical College, Beijing, or Shanghai Medical College of Fudan University, Shanghai, in alternate years.

Selection Criteria

In reviewing the applications, the Committee of Management pays extra emphasis on how the proposed plans of training will benefit the Fellows and their home institutions. Applicants demonstrating possibilities of future collaboration between the Medical Faculty and the institutions in the Mainland will be given higher priority. For Research Fellows and Research Assistants, the Committee considers the applicants' ability to communicate in English effectively as a credit. Candidates wishing to pursue higher degrees by research in the Faculty after completing their special studies would be given priority in the selection of Research Assistants.

Deliverables

Visiting Professors are expected to draw up collaborative research plans together with their counterparts at the Medical Faculty during their visits. Through the Visiting Professorship scheme, continuous collaboration and further academic exchanges between Mainland institutions and The University of Hong Kong are expected to be achieved.

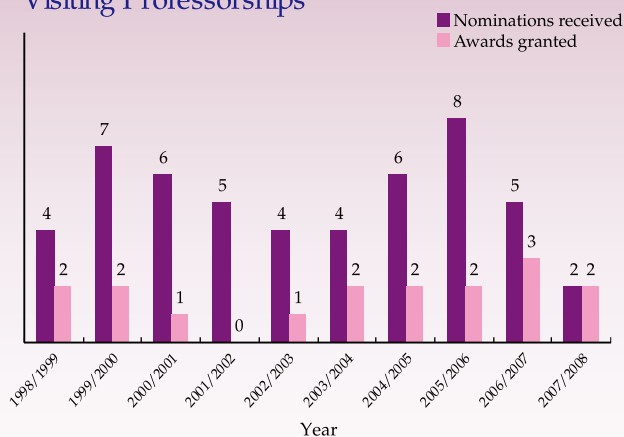

Visiting Fellowships, who are usually in middle-management in medical schools and affiliated teaching hospitals, are expected to apply the administrative and management skills attained during their training to enhance the organization and administration of medical education in their respective institutions. The relevant Deans/Heads of the Medical Faculty are required to set out the educational objectives and draw up plans to achieve such objectives in consultation with the Fellows.

Research Fellows and Research Assistants are expected to acquire research and clinical skills to enable them to conduct research independently and to transfer advanced clinical knowledge back to their home institutions. They are expected to serve the nominating medical schools for a period of not less than three years after completion of their training. Both the Fellows and the respective Deans/Heads of their home institutions are required to submit assessment reports on the Fellows' achievements during the three years after their returns to enable the Committee to evaluate the effectiveness of the training.

Highlights of Achievements

The Dr Cheng Yu Tung Fellowships programme has been welcomed by many academics of high calibre in the Mainland. During the past 10 years, the programme has attracted 853 applications. Among the 51 and 86 applications received for Visiting Professorships and Visiting Fellowships, 17 (33%) & 20 (23%) were awarded respectively. For the applications for Research Fellowships (354) and Assistantships (362), 160 (45%) and 174 (48%) were shortlisted for interview, and 47 (13%) and 75 (21%) were awarded respectively, of which 10 were awarded clinical attachment.

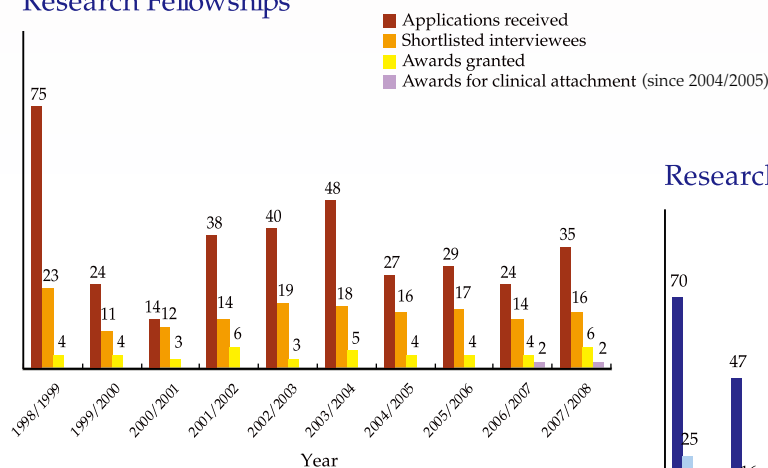

Visiting Professorships

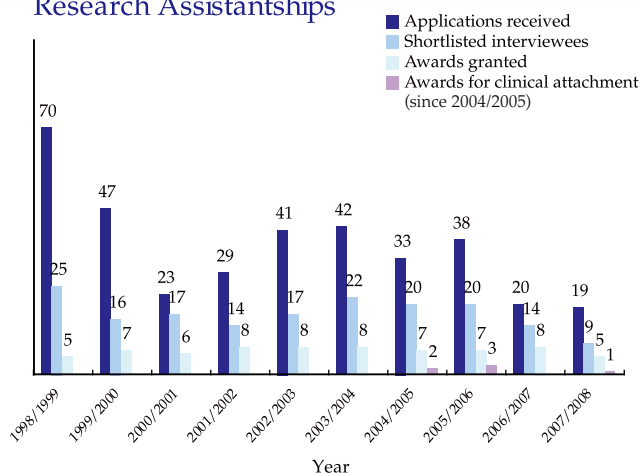

Visiting Fellowships

Research Fellowships

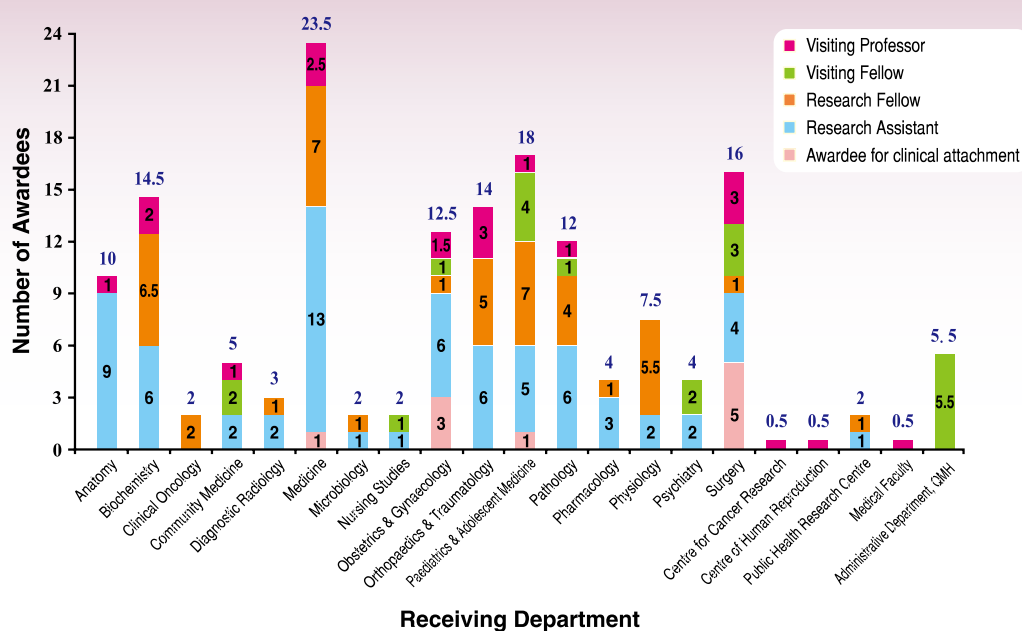

Research Assistantships

The areas of specialization of the awardees varied from clinical service to basic research. Up to now, the Department of Medicine had the largest number of Fellows (15%), followed by the Departments of Paediatrics & Adolescent Medicine (11%), Surgery (10%), Biochemistry (9%) and Orthopaedics & Traumatology (9%).

Number of Dr Cheng Yu Tung Fellows by Department 1998/1999 ~ 2007/2008

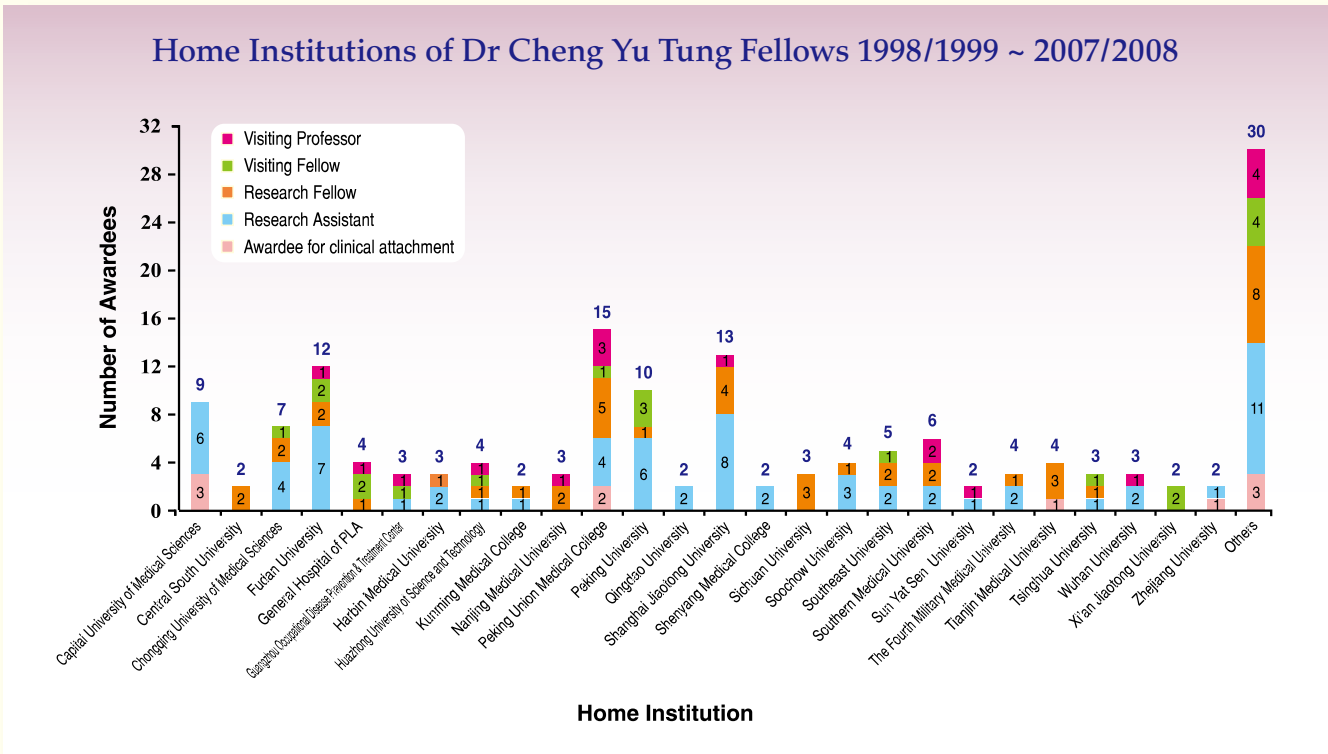

With a view to further enhancing their knowledge in medical research, Research Assistants are encouraged to pursue higher degree studies at the Faculty upon completion of their Fellowships. So far 26 Fellows (41%) had moved on to pursue higher degrees studies in the Faculty, of which 20 (77%) enrolled in the PhD programme and 6 (23%) in the MPhil programme.

Dr Cheng Yu Tung Research Assistants who have proceeded to Higher Degree studies 1998/1999 ~ 2006/2007

Year	No. of Research Assistant	PhD	MPhil	Total	Department	No. of graduates
1998/1999	5	3	—	3	Medicine; Pathology; Physiology	3 PhD
1999/2000	7	2	—	2	Medicine; Pathology	2 PhD
2000/2001	6	2	1	3	Medicine; Obstetrics & Gynaecology; Surgery	2 PhD 1 MPhil

Total	64	20	6	26		16

The Dr Cheng Yu Tung Fellowships programme became widely known in the Mainland shortly after its launch in 1998/99. Most of the Fellows came from medical institutions in Beijing (30%) and Shanghai (18%) initially, but in recent years, more and more applicants are from institutions throughout the Mainland. As the Fellowships programme becoming more popular in the Mainland, the number of nominations/applications received has increased progressively. In the past 10 exercises, the Peking Union Medical College had obtained the largest number of awards under the Fellowships programme (9%), followed by the Shanghai Jiaotong University (8%), the Peking University (6%) and the Capital University Medical Sciences (6%).

It was reflected in the feedbacks from the Fellows and the Deans/Heads of their home institutions that the Fellowships programme has not only contributed to the career advancement of the Fellows, but more importantly enlightened the research directions and development of the institutions. Within their 3-year service at their home institutions upon completion of their training, 11 out of 13 (85%) Research Fellows and 8 out of 14 (57%) Research Assistants had been granted promotions. Furthermore, 13 Research Fellows and 14 Research Assistants have published a total of 83 journal papers and secured 32 research grants.

Career promotion of Dr Cheng Yu Tung Fellows within 3-year service at home institutions upon completion of the Fellowships

Speciality	: Smoking and Occupational Exposures
Current position & institution	: Director and Professor, Guangzhou Occupational Diseases Prevention and Treatment Centre, Guangzhou
Contact information	: Guangzhou No. 12 Hospital (Guangzhou Occupational Diseases Prevention and Treatment Centre), No. 1, Tiangqiang Street, Huangpu Road West, Tianhe District, Guangzhou 510620, PR China Email: cqjiang@hkucc.hku.hk Fax: 86-20-38981257

Prof SONG Yanhua

Receiving Department	: Psychiatry
Receiving staff	: Professor F Lieh-Mak
Speciality	: Early Drug Intervention on the Long Term Prognosis of Schizophrenia
Contact information	: Institute of Mental Health, Health Science Center of Peking University, Beijing, PR China Email: shenyc@mail.bjmu.edu.cn Fax: 86-10-62027314

Research Fellows

Dr MA Runmei

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor TTH Lao
Field of study	: Perinatal Medicine, Gynaecology Endocrinology and Reproductive Endocrinology
Current position & institution	: Head and Professor, Department of Obstetrics & Gynaecology, The First Affiliated Hospital of Kunming Medical College, Kunming
Contact information	: Department of Obstetrics & Gynaecology, The First Affiliated Hospital of Kunming Medical College, Kunming, Yunnan 650032, PR China Email: marunmei@hotmail.com or marunmei@gmail.com Fax: 86-871-5312038

Dr WANG Jun

Receiving Department	: Paediatrics and Adolescent Medicine
Supervisor	: Professor YL Lau & Dr NS Tsoi
Field of study	: Neonatology and Neonatal Intensive Care
Contact information	: Department of Paediatrics, The Third School of Clinical Medicine, Health Science Center of Peking University, Beijing, PR China Fax: 86-10-62017700

Dr ZHANG Hao

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor KMC Cheung & Dr WW Lu
Field of study	: The Role of Haversian Remodelling in Bone Repair
Contact information	: Department of Orthopaedic & Spinal, Nanfang Hospital, Guangzhou, PR China Email: zhhao@fimmu.edu.cn Fax: 86-20-87640940

Dr ZHU Tongyu

Receiving Department	: Pharmacology
Supervisor	: Professor RYK Man
Field of study	: The Action of Glycoproteins in the Treatment of Cancer and Modulation of the Immune System
Current position & institution	: Professor of Urology and Director of Department of Scientific Research, Zhongshan Hospital, Shanghai
Contact information	: Department of Urology, Zhongshan Hospital, Shanghai Medical College of Fudan University, 180 Fengliu Road, Shanghai 200032, PR China Email: tyzhu@fudan.edu.cn Fax: 86-21-64038038

Research Assistants

Dr LI Guozhao

Receiving Department	: Diagnostic Radiology
Supervisor	: Dr CGC Ooi
Field of study	: Clinical Interventional Radiology
Current position & institution	: Attending Radiologist, Sun Yat Sen Memorial Hospital, Guangzhou
Contact information	: Sun Yat Sen Memorial Hospital, 107 No. 1 Yanjiang Road, Guangzhou, PR China Fax: 86-20-81332702

Dr WU Wen

Receiving Department	: Medicine
Supervisor	: Professor RHS Liang
Field of study	: Immunology, Cellular and Molecular Biology in Various Diseases of Hematologic Malignant
Current position & institution	: Professor and Chief Doctor, Department of Haematology, Medical Centre for Special Needs, Shanghai Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, Shanghai
Contact information	: Department of Haematology, Shanghai Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, 197 Ruijin Er Road, Shanghai 200025, PR China Email: wuwen@medmail.com.cn Fax: 86-21-64672883

Dr XUE Weicheng

Receiving Department	: Pathology
Supervisor	: Professor ANY Cheung
Field of study	: Pathology of Female Reproductive System
Higher degree study in HKU	: PhD
Current position & institution	: Associate Professor, Department of Pathology, Beijing Cancer Hospital & Institute, School of Oncology, Peking University, Beijing
Contact information	: Department of Pathology, Beijing Cancer Hospital & Institute, School of Oncology, Peking University, 52 Fucheng Road, Beijing 100036, PR China Email: xuewc2004@yahoo.com.cn Fax: 86-10-88122473

Dr YUAN Hejun

Receiving Department	: Medicine
Supervisor	: Professor CL Lai
Field of study	: Hepatology
Higher degree study in HKU	: PhD
Contact information	: Department of Internal Medicine, Zhongshan Hospital, Shanghai Medical College of Fudan University, Shanghai, PR China

Dr YUAN Jiahong

Receiving Department	: Surgery
Supervisor	: Dr PC Tam
Field of study	: Urologic Carcinoma
Contact information	: Department of Urology, Peking Union Medical College Hospital, Beijing, PR China

Dr ZHANG Jianguo

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor KDK Luk & Dr WW Lu
Field of study	: Spinal Growth on the Scoliosis Deformity after Posterior Spinal Fusion
Contact information	: Department of Orthopaedics, Peking Union Medical College Hospital, Beijing, PR China

Dr ZHOU Xuan

Receiving Department	: Paediatrics and Adolescent Medicine
Supervisor	: Professor YL Lau
Field of study	: Hematoneosis & Leukemia
Current position & institution	: Attending Doctor, Haematology Centre, Beijing Children's Hospital, Capital University of Medical Sciences, Beijing
Contact information	: Beijing Children's Hospital, Capital University of Medical Sciences, Nan Lishi Road, Beijing 100045, PR China Email: lillyzhou@medmail.com.cn

2000 - 2001

Visiting Professor

Professor WANG Jiyao

Receiving Department	: Medicine
Receiving staff	: Professor BCY Wong
Speciality	: Internal Medicine and Gastroenterology
Contact information	: Zhongshan Hospital, Shanghai Medical College of Fudan University, 180 Fong Ling Road, Shanghai 200032, PR China Email: jywang@shmu.edu.cn Fax: 86-21-64833680

Research Fellows

Dr ZHANG Yonggang

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor KMC Cheung
Field of study	: Fracture Healing, Spine Surgery and Joint Surgery
Contact information	: Department of Orthopaedics, General Hospital of Chinese PLA, 28 Fuxing Road, Beijing 100853, PR China Email: zhangyg301@263.net Fax: 86-10-65810216

Dr ZHENG Qian

Receiving Department	: Biochemistry
Supervisor	: Dr DKY Shum
Field of study	: IORO Patients, Osteoblast & Chondroblast of Condyle in Rabbits
Current position & institution	: Vice Chairman, Department of Oral & Maxillofacial Surgery, Huaxi College of Stomatology, Sichuan University, Sichuan
Contact information	: Department of Oral & Maxillofacial Surgery, Huaxi College of Stomatology, Sichuan University, Renmin Nan Road, Section 3, 14#, Chengdu, Sichuan, PR China Email: zq652@163.com Fax: 86-28-85502570

Dr ZHONG Liyong

Receiving Department	: Physiology
Supervisor	: Dr ML Fung & Dr SYW Shiu
Field of study	: Relationship between Melatonin and Diabetes
Contact information	: Department of Endocrinology, Southeast University, 87 Dingjiaoqiao Road, Nanjing 210009, PR China Fax: 86-25-3301655

Research Assistants

Dr CAO Jingming

Receiving Department	: Pharmacology
Supervisor	: Professor RYK Man
Field of study	: Ischemia Heart Diseases
Current position & institution	: Professor, Department of Cardiology, The First Affiliated Hospital of Kunming Medical College, Kunming
Contact information	: Department of Cardiology, The First Affiliated Hospital of Kunming Medical College, 259 Xicheng Road, Kunming 650032, PR China Email: kmcao_6737375@yahoo.com.cn Fax: 86-871-5191291

Dr DENG Jianchuan

Receiving Department	: Medicine
Supervisor	: Professor CP Lau
Field of study	: Internal Medicine - Cardiology or Hematology
Current position & institution	: Doctor-in-charge, Department of Hematology, The Second Hospital of Chongqing University of Medical Sciences, Chongqing
Contact information	: Department of Internal Medicine, The Second Hospital of Chongqing University of Medical Sciences, Chongqing 400010, PR China Email: dengjccq@163.com

Dr JIN Hao

Receiving Department	: Surgery
Supervisor	: Professor WI Wei
Field of study	: Otorhinolaryngology and Surgery of head and neck
Higher degree study in HKU	: MPhil
Contact information	: Ruijin Hospital, Medical College of Shanghai Jiaotong University, Shanghai, PR China Email: jinhao0509@hotmail.com

Dr Shi Huijing

Receiving Department	: Community Medicine
Supervisor	: Dr SM Stewart
Field of study	: Growth and Development in Childhood, Child Psychiatry
Current position & institution	: Deputy Director and Associate Professor, Department of Child and Adolescent Health, School of Public Health, Fudan University
Contact information	: PO Box 244, 138 Yixueyuan Road, Shanghai 200032, PR China Email: hjshi@fudan.edu.cn Fax: 86-21-54237022

Dr YANG Huijuan

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor HYS Ngan
Field of study	: Gene Diagnosis and Gene Therapy of Gynaecologic Malignancy
Higher degree study in HKU	: PhD
Current position & institution	: Attending Physician, Department of Gynaecologic Oncology, Cancer Hospital, Shanghai Medical College of Fudan University, Shanghai
Contact information	: Department of Gynaecologic Oncology, Cancer Hospital, Shanghai Medical College of Fudan University, 270 Dongan Road, Shanghai 200032, PR China Email: huijuanyang@hotmail.com

Dr ZOU Liangyu

Receiving Department	: Medicine
Supervisor	: Professor RTF Cheung
Field of study	: The Pathogeny of Vascular Dementia and Differentiation of AD and VD by Neuroimaging and Functional Neuroimaging Method
Higher degree study in HKU	: PhD
Contact information	: Department of Neurology, The First Clinical Medical College of Harbin Medical University, Harbin, PR China Email: wz98@graduate.hku.hk

2001 - 2002

Visiting Fellows

Dr DAI Tao

Receiving Department	: Administrative Department, Queen Mary Hospital
Receiving staff	: Miss Pansy Lim
Speciality	: Health Management
Contact information	: Department of Medical Administration, Peking Union Medical College & Chinese Academy of Medical Sciences, 9 Dong Dan San Tiao, Beijing 100730, PR China Email: daitao@cdm.imicams.ac.cn Fax: 86-10-65256546

Ms HU Lan

Receiving Department	: Nursing Studies
Receiving staff	: Dr Beatrice Law & Dr Agnes Tiwari
Speciality	: Health Management
Contact information	: Department of Nursing, Plastic Surgery Hospital, Chinese Academy of Medical Sciences, 9 Dong Dan San Tiao, Beijing 100730, PR China Email: pshxulu@bj.onuninet.net Fax: 86-10-88964137

Dr WANG Yuqi

Receiving Department	: Surgery
Receiving staff	: Professor SWK Cheng
Speciality	: Health Management
Current position & institution	: President and Professor, Zhongshan Hospital and Institute of Vascular Surgery, Shanghai Medical College of Fudan University, Shanghai
Contact information	: Zhongshan Hospital, Shanghai Medical College of Fudan University, 180 Fenglin Road, Shanghai 200032, PR China Email: yqwang@zshospital.com Fax: 86-21-64037269

Research Fellows

Dr HUANG Yue

Receiving Department	: Biochemistry
Supervisor	: Dr MH Sham
Field of study	: Gene Targeting [by Using Embryonic Stem (ES) cells]
Contact information	: Department of Biochemistry, Institute of Basic Medical Sciences, Peking Union Medical College & Chinese Academy of Medical Sciences, 5 Dong Dan San Tiao, Beijing 100005, PR China Email: huangy@public.bta.net.cn Fax: 86-10-65240529

Dr KONG Xiaohui

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Professor YL Lau
Field of study	: Immunologic Effects and the Potential Contributions of Viral Infections to the Pathogenesis of Recurrent Wheezing and Chronic Asthma
Current position & institution	: Associate Researcher, Beijing Institution of Paediatrics, Beijing Children's Hospital, Beijing
Contact information	: Beijing Children's Hospital, 56 Nan Lishi Road, Beijing 100045, PR China Email: xiaohuikong@hotmail.com Fax: 86-10-68029020

Dr LI Songjian

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Dr P Chien
Field of study	: Investigation of Biological Behaviour of Multinucleated Giant Cells in Osteolytic Lesions
Current position & institution	: Associate Head & Associate Professor, Department of Orthopaedics, Zhujiang Hospital, Southern Medical University, Guangzhou
Contact information	: Department of Orthopaedics, Zhujiang Hospital, Southern Medical University, 253 Gongye Road (Middle), Guangzhou 510282, PR China Email: lisongjian321@126.com

Dr LIAO Linchuan

Receiving Department	: Pathology
Supervisor	: Professor A Nanji
Field of study	: Analytical Toxicology, Pharmaceutical Analysis and Equipment Analysis Determining Drugs from Biomaterials
Current position & institution	: Vice Dean, Academic Affairs Office; Head and Professor, Department of Analytical Toxicology, School of Preclinical and Forensic Medicine, Sichuan University
Contact information	: Department of Analytical Toxicology, School of Preclinical and Forensic Medicine, Sichuan University, 17 Renmin Nan Road, Chengdu, Sichuan, PR China Email: linchuanliao@163.com or linchuanliao@scu.edu.cn Fax: 86-28-85501549 or 86-28-85501636

Dr LIU Bingya

Receiving Department	: Surgery
Supervisor	: Professor KM Chu
Field of study	: Differential Gene Expression/Tumour Vaccines/Cancer Gene Therapy
Current position & institution	: Professor, Shanghai Institute of Digestive Surgery, Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, Shanghai
Contact information	: Shanghai Institute of Digestive Surgery, Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, 197 Ruijin Er Road, Shanghai 200025, PR China Email: digsurgliu@netscape.net Fax: 86-21-64373909

Dr ZHANG Fuxing

Receiving Department	: Physiology
Supervisor	: Professor YS Chan
Field of study	: Axonal Growth Trajectories Across the Hindbrain
Current position & institution	: Associate Professor, Department of Anatomy, The Fourth Military Medical University, Xi'an
Contact information	: Department of Anatomy, The Fourth Military Medical University, 17 West Changle Street, Xi'an, Shaanxi 710032, PR China Email: zhangfuxing@yahoo.com

Research Assistants

Dr CHU Qingjun

Receiving Department	: Anatomy
Supervisor	: Professor YC Wong
Field of study	: Pathogenesis of BPH and Prostatic Cancer
Higher degree study in HKU	: PhD
Current position & institution	: Associate Professor, Department of Urology, Fengtian Hospital Affiliated to Shenyang Medical College, Shenyang
Contact information	: Department of Urology, Fengtian Hospital Affiliated to Shenyang Medical College, 5 Nanqi West Road, Tiexi District, Shenyang, Liaoning 110024, PR China Email: qjchu726@hotmail.com

Mr JIN Liang

Receiving Department	: Biochemistry
Supervisor	: Professor KSE Cheah
Field of study	: Molecular Biology, Molecular Genetics and Clinical Hereditary Diseases
Current position & institution	: Lecturer, Institute of Neuroscience, the Fourth Military Medical University, Xi'an
Contact information	: Institute of Neuroscience, The Fourth Military Medical University, 17 Changle West Street, Xi'an, Shaanxi 710032, PR China Email: jinl73@hotmail.com Fax: 86-29-83246270

Dr LI Jing

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Dr GCF Chan
Field of study	: Childhood Hematology and Oncology
Higher degree study in HKU	: PhD
Current position & institution	: Project Co-ordinator, Fuwai-Oxford Collaborative Centre for Cardiovascular Health, Cardiovascular Institute & Fuwai Hospital, Chinese Academy of Medical Sciences & Peking Union Medical College, Beijing
Contact information	: PO Box 72, 167 Beilishi Road, Beijing 100037, PR China Email: jinglixue@gmail.com Fax: 86-10-88365201

Dr RONG Rong

Receiving Department	: Medicine
Supervisor	: Professor KSL Lam
Field of study	: Pathogenesis of Diabetic Complications
Higher degree study in HKU	: PhD
Current position & institution	: Postdoctoral Fellow, Phoenix Epidemiology and Clinical Research Branch, National Institute of Diabetes and Digestive and Kidney Diseases/National Institute of Health, Phoenix, USA
Contact information	: 445 N., 5 th Street, Phoenix Epidemiology and Clinical Research Branch, National Institute of Diabetes and Digestive and Kidney Diseases/National Institute of Health, Phoenix, AZ 85004, USA Email: rrong@niddk.nih.gov Fax: 602-2534140

Ms SUN Wei

Receiving Department	: Microbiology
Supervisor	: Professor KF Shortridge & Professor JSM Peiris
Field of study	: Genesis of Human Pandemic Influenza
Higher degree study in HKU	: PhD (not completed)
Contact information	: Department of Pathophysiology, Medical College of Jinan University, Guangzhou 510632, PR China Email: fuyichen@sohu.com

Dr WU Xingzhong

Receiving Department	: Pathology
Supervisor	: Professor LC Chan
Field of study	: Differentiation and Apoptosis Therapy of Tumor Cells, Spinal Transduction
Current position & institution	: Professor, Department of Biochemistry, Shanghai Medical College of Fudan University, Shanghai
Contact information	: Room 901, 10#, 288 Long Wu Road, Shanghai 200030, PR China Email: john77wu@126.com Fax: 86-21-64278329

Dr ZHANG Yanqiong

Receiving Department	: Anatomy
Supervisor	: Professor KF So
Field of study	: Diabetic Retinopathy
Contact information	: Shanghai EENT Hospital, Shanghai Medical College of Fudan University, 83 Fenyang Road, Shanghai, PR China Email: smallfox@public4.sta.net.cn Fax: 86-21-64377151

Dr ZHOU Xiaozhong

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor JCY Leong
Field of study	: Orthopaedic Surgery
Current position & institution	: Assistant Professor, The Second Affiliated Hospital of Suzhou University, Suzhou
Contact information	: Department of Orthopaedic Surgery, The Second Affiliated Hospital of Suzhou University, 1055 Sanxiang Road, Suzhou, Jiangsu, PR China Email: szzxcn@yahoo.com.cn Fax: 86-512-62566786

2002 - 2003

Visiting Professor

Prof GONG Feili

Receiving Department	: Paediatrics & Adolescent Medicine
Receiving staff	: Professor YL Lau
Speciality	: Basic and Clinical Immunology
Contact information	: Department of Immunology, Tongji Medical College, Huazhong University of Science & Technology, Wuhan, Hubei, PR China Email: flgong@tjmu.edu.cn Fax: 86-27-83693500

Visiting Fellows

Dr HE Xiaosheng

Receiving Department	: Surgery
Receiving staff	: Professor WI Wei
Speciality	: Health Management
Current position & institution	: Professor and Chief Physician, Department of Neurosurgery, Xijing Hospital, The Fourth Military Medical University, Xi'an
Contact information	: Department of Neurosurgery, Xijing Hospital, The Fourth Military Medical University, 15 West Changle Road, Xi'an, Shaanxi 710032, PR China Email: hexiaos@fmmu.edu.cn Fax: 86-29-84775567

Dr HUA Keqin

Receiving Department	: Obstetrics & Gynaecology
Receiving staff	: Professor PC Ho
Speciality	: Health Management
Contact information	: Hospital of Gynaecology & Obstetrics, Shanghai Medical College of Fudan University, Shanghai, PR China Email: lchenhkq@online.sh.cn Fax: 86-21-63770768

Dr YAO Guizhong

Receiving Department	: Psychiatry
Receiving staff	: Dr EYH Chen and Dr TP Ho
Speciality	: Health Management
Contact information	: Institute of Mental Health, Health Science Center of Peking University, Beijing, PR China Email: yaogzh@public.fhnet.cn.net Fax: 86-10-62027314

Dr ZHAO Yue

Receiving Department	: Paediatrics & Adolescent Medicine
Receiving staff	: Dr YF Cheung
Speciality	: Health Management
Contact information	: People's Hospital, Health Science Center of Peking University, Beijing, PR China Fax: 86-10-68318386

Research Fellows

Dr BEN Xiaoming

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Dr PT Cheung
Field of study	: Paediatrics, Neonatology & Neonatal Intensive Care
Current position & institution	: Nutritional Manager, Borten International, Shanghai Jiaotong University, Shanghai
Contact information	: 中國上海浦東張江高科技園區郭守敬路351號2號樓 (郵編 : 201204) Email: benxm@163.com Fax: 86-21-50458126

Dr QI Jie

Receiving Department	: Biochemistry
Supervisor	: Dr MH Sham
Field of study	: Molecular Biology, Embryonic Development, Differentiation Cell
Current position & institution	: Research Associate, Gynaecological Oncology Lab, Manchester University, St Mary's Hospital, Manchester, UK
Contact information	: Gynaecological Oncology Lab, Manchester University, St Mary's Hospital, Manchester, M13 0JH, UK Email: jie.qi@manchester.ac.uk Fax: 0044-161-2766239

Dr TIANYe

Receiving Department	: Clinical Oncology
Supervisor	: Professor JST Sham
Field of study	: Radiation Oncology and Radiobiology – Brain Radiation Injury
Current position & institution	: Professor and Director, Department of Radiotherapy & Oncology, The Second Affiliated Hospital of Suzhou University, Suzhou
Contact information	: Department of Radiotherapy & Oncology, The Second Affiliated Hospital of Suzhou University, 1055 San Xiang Road, Suzhou, Jiangsu 215004, PR China Email: dryetian@hotmail.com Fax: 86-512-68284303

Research Assistants

Dr CHEN Baiyu

Receiving Department	: Anatomy
Field of study	: Neuroanatomy – Injury and Regeneration of the Central Nervous System
Higher degree study in HKU	: PhD
Current position & institution	: Lecturer, Department of Anatomy, Health Science Center of Peking University, Beijing
Contact information	: Department of Anatomy, Health Science Center of Peking University, 38 Xueyuan Road, Haidian District, Beijing 100083, PR China Email: chenby@bjmu.edu.cn Fax: 86-10-82802466

Mr GAO Bo

Receiving Department	: Biochemistry
Supervisor	: Professor KSE Cheah
Field of study	: Indian Hedgehog in the Development of the Skeleton
Higher degree study in HKU	: PhD
Current position & institution	: Postdoctoral Fellow, National Human Genome Research Institute, National Institute of Health, Bethesda, Maryland, USA
Contact information	: Room 4A75, Building 49, 49 Convent Dr, Bethesda, MD 20892, USA Email: gaob@mail.nih.gov

Dr HU Rui

Receiving Department	: Medicine
Supervisor	: Professor HF Tse
Field of study	: Cardiology, including examining techniques of the Cardiac Electricity and Echocardiography
Higher degree study in HKU	: MPhil
Current position & institution	: Postdoctoral Fellow, National Human Genome Research Institute, National Institute of Health, Bethesda, Maryland, USA
Contact information	: Department of Cardiology, Jinshan Hospital, Shanghai Medical College of Fudan University, Shanghai, PR China Email: hurui66@yahoo.com

Ms HUANG Baoyan

Receiving Department	: Nursing Studies
Supervisor	: Dr SSC Chan
Field of study	: Nursing Education
Current position & institution	: Lecturer, School of Nursing, Peking Union Medical College, Beijing
Contact information	: School of Nursing, Peking Union Medical College, 9 Dongdan San Tiao, Dongcheng District, Beijing, PR China Email: huangbaoyan2000@sina.com Fax: 86-10-65282392

Dr JIN Ou

Receiving Department	: Medicine
Supervisor	: Professor CS Lau
Field of study	: Rheumatology and Immunology
Higher degree study in HKU	: PhD
Contact information	: Department of Rheumatology and Immunology, Drum Tower Hospital, Medical School of Nanjing University, Nanjing, PR China Email: jinouwishugood@hotmail.com Fax: 86-25-3317016

Ms WANG Qi

Receiving Department	: Anatomy
Supervisor	: Professor GSW Tsao
Field of study	: Cancer Genetics
Current position & institution	: Postdoctoral Fellow, Molecular Oncology Research Institute, Tufts-New England Medical Center, Boston, USA
Contact information	: 544 Columbus Avenue, Apt#4, Boston, MA 02118, USA Email: wangqi168@yahoo.com Fax: 671-636-5277

Dr ZHANG Min

Receiving Department	: Pathology
Supervisor	: Dr LW Lu
Field of study	: Immunology, especially in the Development of B Lymphocyte in Bone Marrow
Higher degree study in HKU	: PhD
Contact information	: Department of Pathology, Shanghai Pulmonology Hospital, Shanghai, PR China Email: miniz@eastday.com Fax: 86-21-65111298

Dr ZHU Li

Receiving Department	: Surgery
Supervisor	: Dr LWC Chow
Field of study	: Breast Surgery
Higher degree study in HKU	: MPhil
Contact information	: Department of General Surgery, Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, Shanghai, PR China Email: zhuli8@hotmail.com Fax: 86-21-58402467

2003 - 2004

Visiting Professors

Prof QIU Guixing

Receiving Department	: Orthopaedics & Traumatology
Receiving staff	: Professor KDK Luk
Speciality	: Treatment of Spinal Deformities
Current position & institution	: Chief of Orthopedics and Surgery, Peking Union Medical College Hospital, Beijing
Contact information	: Department of Orthopaedic Surgery, Peking Union Medical College Hospital, 1 Shuaifuyuan, Wangfujing, Dongcheng District, Beijing 100730, PR China Email: pumchorthopedics@yahoo.com.cn Fax: 86-10-65296081

Prof SHI Chengren

Receiving Department	: Surgery
Receiving staff	: Professor PKH Tam
Speciality	: Molecular Genetics of Childhood Tumours
Current position & institution	: Professor, Department of Pediatric Surgery, Xinhua Hospital; Chief of Pediatric Surgery Education Division, School of Medicine of Shanghai Jiaotong University, Shanghai
Contact information	: Department of Pediatric Surgery, Xinhua Hospital, School of Medicine of Shanghai Jiaotong University, 1665 Kongjiang Road, Shanghai 200092, PR China Email: shicr629@163.com Fax: 86-21-65795173

Visiting Fellows

Dr LI Zongfang

Receiving Department	: Surgery
Receiving staff	: Professor ST Fan
Speciality	: Health Management
Current position & institution	: Vice President, The Second Affiliated Hospital of Xi'an Jiaotong University; Professor and Chief Surgeon, Department of General Surgery, The Second Affiliated Hospital of Xi'an Jiaotong University, Xi'an
Contact information	: The Second Affiliated Hospital of Xi'an Jiaotong University, 157 West 5 th Road, Xi'an, Shaanxi 710004, PR China Email: lzf2568@mail.xjtu.edu.cn Fax: 86-29-87678634

Dr WANG Guiyun

Receiving Department	: Administrative Department, Queen Mary Hospital
Receiving staff	: Ms Joyce Leung
Speciality	: Health Management
Contact information	: The Hospital of Renmin University of China, Beijing, PR China Email: guiyunwang408802@sina.com Fax: 86-10-62515202

Prof YANG Li

Receiving Department	: Paediatrics & Adolescent Medicine
Receiving staff	: Professor YL Lau
Speciality	: Health Management
Contact information	: Zhongda Hospital, Southeast University, Nanjing, PR China Email: yangli2628@hotmail.com or yanglily@jlonline.com Fax: 86-25-3272011

Research Fellows

Dr FU Qiang

Receiving Department	: Biochemistry
Supervisor	: Dr NS Wong
Field of study	: Molecular Biological Mechanism of Atherosclerosis
Current position & institution	: Associate Professor, Department of Biochemistry & Molecular Biology, School of Preclinical and Forensic Medicine, Sichuan University, Sichuan
Contact information	: Department of Biochemistry and Molecular Biology, School of Preclinical and Forensic Medicine, Sichuan University, 17 The 3rd Section of South Renmin Road, Chengdu, Sichuan 610041, PR China Email: fucarl@yahoo.com.cn Fax: 86-28-85503204

Dr JIANG Zidong

Receiving Department	: Physiology
Supervisor	: Professor YS Chan
Field of study	: Neurobiology, especially in Vestibular System (Otolith Nerve Pathway); Signal Transduction in the field of Physiology
Current position & institution	: Associate Professor, Department of Otolaryngology, Peking Union Medical College Hospital, Beijing
Contact information	: Department of Otolaryngology, Peking Union Medical College Hospital, 1 Dongdan Shuaifuyuan, Beijing 100730, PR China Email: zidongjiangcn@yahoo.com.cn

Dr LIN Yansong

Receiving Department	: Medicine
Supervisor	: Professor SL Ho
Field of study	: Exploration of Dopamine Transporter and D2 Receptor in Parkinson's Disease
Current position & institution	: Associate Professor, Nuclear Medicine Department, Peking Union Medical College Hospital, Beijing
Contact information	: Peking Union Medical College Hospital, 1 Shuaifu Road, Dongcheng District, Beijing, PR China Email: linyansong68@yahoo.com.cn Fax: 86-10-65124875

Dr LIU Jiaren

Receiving Department	: Biochemistry
Supervisor	: Dr YQ Song
Field of study	: Research on Fields of Anticarcinogenesis from Food and Carcinogenesis in Environment
Current position & institution	: Research Associate, Department of Food Science, Agriculture and Life Science, Cornell University, New York, USA
Contact information	: 127 Stocking Hall, Department of Food Science, Cornell University, Ithaca, New York, 14853-7201, USA Email: jiarl@ems.hrbmu.edu.cn or jiarenliu@yahoo.com Fax: 001-607-2544868

Dr ZHU Yong

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor SP Chow
Field of study	: Biomechanics of Internal Fixation Materials; Study on Absorbable Internal Fixation Materials
Current position & institution	: Professor and Chief Resident, Department of Orthopaedics, Xiangya Hospital, Central South University
Contact information	: Department of Orthopaedics, Xiangya Hospital, Central South University, Changsha, Hunan, PR China Email: doczhu2003@yahoo.com.cn Fax: 86-731-4327389

Research Assistants

Ms CHEN Xuehui

Receiving Department	: Biochemistry
Supervisor	: Dr YQ Song
Field of study	: Biochemistry and Pharmaceutical Biology
Contact information	: Department of Biochemistry and Molecular Biology, Health Science Center of Peking University, Beijing, PR China Email: coccxh@mail.china.com

Dr GUO Yijing

Receiving Department	: Physiology
Supervisor	: Dr ML Fung
Field of study	: Hypoxia and Physiology
Contact information	: The Affiliated Zhongda Hospital of Southeast University, Nanjing, PR China Email: janeguoyijing@hotmail.com

Dr JI Qiang

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor KMC Cheung
Field of study	: Aetiology of Paediatrics Disease
Current position & institution	: Associate Professor, Department of Orthopaedic Surgery, Xijing Hospital, The Fourth Military Medical University, Xi'an
Contact information	: Department of Orthopaedic Surgery, Xijing Hospital, The Fourth Military Medical University, 15 Changle West Road, Xi'an, Shaanxi 710032, PR China Email: jiqiang@fmmu.edu.cn Fax: 86-29-83244986

Dr LAO Xiangqian

Receiving Department	: Community Medicine
Supervisor	: Professor TH Lam
Field of study	: Biostatistics, SAS Software and Research Methods of Epidemiology
Higher degree study in HKU	: PhD
Current position & institution	: PhD student, Department of Community Medicine & School of Public Health, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Department of Community Medicine & School of Public Health, The University of Hong Kong Li Ka Shing Faculty of Medicine, 5/F William M.W. Mong Block, 21 Sassoon Road, Pokfulam, Hong Kong Email: xqlao@hkucc.hku.hk Fax: 852-28559528

Dr LI Zijian

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Dr DKHYip
Field of study	: Clinical Orthopaedics, Joint Surgery, Skills of Arthroscopy and Joint Replacement
Current position & institution	: Attending Doctor, Department of Orthopaedics, The Third Hospital of Peking University, Beijing
Contact information	: Department of Orthopaedics, The Third Hospital of Peking University, 38 Xueyuan Road, Beijing 100083, PR China Email: lizijian76@hotmail.com

Dr LIU Qian

Receiving Department	: Surgery
Supervisor	: Professor PKH Tam
Field of study	: Paediatric Surgery: Hirschsprung's Disease, Oncology, Transplantation of Small Bowel or Liver in Children and Haemangioma
Contact information	: Children's Hospital of Chongqing University of Medical Sciences, Chongqing, PR China Email: liuqian_the1st@21cn.com or liuqian_the1st@163.com Fax: 86-23-63622874

Dr MA Li

Receiving Department	: Biochemistry
Supervisor	: Dr MH Sham
Field of study	: Biochemistry, Histology, Molecular Biology and Genetics
Higher degree study in HKU	: PhD
Current position & institution	: PhD student in Oral and Maxillofacial Surgery, Faculty of Dentistry, The University of Hong Kong
Contact information	: Oral and Maxillofacial Surgery, 2/F Prince Philip Dental Hospital, 34 Hospital Road, Hong Kong Email: mali210@hotmail.com Fax: 852-28575570

Ms XU Meishu

Receiving Department	: Pathology
Supervisor	: Dr US Khoo
Field of study	: Treatment on Gynaecological Cancer
Higher degree study in HKU	: MPhil
Contact information	: No. 529, S. Aiken Ave. Apt 5, Pittsburgh PA 15232, USA Email: meishuxu@gmail.com

2004 - 2005

Visiting Professors

Prof WANG Yan

Receiving Department	: Orthopaedics & Traumatology
Receiving staff	: Professor KDK Luk
Speciality	: Study of Spine
Contact information	: Department of Orthopaedics, Chinese General Hospital of People's Liberation Army, Beijing, PR China Email: yanwang301@yahoo.com Fax: 86-10-88219862

Prof ZHUANG Shimei

Receiving Department	: Pathology
Receiving staff	: Professor LC Chan
Speciality	: Lymphomas and Liver Cancer
Current position & institution	: Professor, School of Life Sciences, Sun Yat Sen University, Guangzhou
Contact information	: Key Laboratory of Gene Engineering of Ministry of Education, School of Life Sciences, Sun Yat Sen University, Guangzhou 510275, PR China Email: lsszsm@mail.sysu.edu.cn Fax: 86-20-84112169

Visiting Fellow

Dr WEI Donghai

Receiving Department	: Administrative Department, Queen Mary Hospital
Receiving staff	: Ms Joyce Leung/Ms Patricia So
Speciality	: Health Management
Current position & institution	: Director, President's Office and Director, Foreign Affairs, Guangzhou Medical College, Guangzhou; Adjunct Professor, Northridge of California State University, USA
Contact information	: Guangzhou Medical College, 195 Dongfeng Road West, Guangzhou 510182, PR China Email: weidhai@vip.163.com Fax: 86-20-81340442

Research Fellows

Dr FU Rong

Receiving Department	: Medicine
Supervisor	: Professor CS Lau
Field of study	: Pathogenic Mechanism of Autoimmune Disease Mediated by Autoantibody
Contact information	: Tianjin Medical University Hospital, Tianjin, PR China Email: florai@vip.sina.com Fax: 86-22-23543418

Dr HUANG Ying

Receiving Department	: Medicine
Supervisor	: Dr KCB Tan
Field of study	: Lipid Metabolism, Function and Regulation Mechanisms of the Related Nuclear Receptors
Current position & institution	: Cardiologist and Attending Physician, Cardiology Department, College of Clinical Medicine, The First Affiliated Hospital of Chongqing University of Medical Sciences, Chongqing
Contact information	: Cardiology Department, The First Affiliated Hospital of Chongqing University of Medical Sciences, Chongqing 400016, PR China Email: huangyja@yahoo.com

Dr WANG Qian

Receiving Department	: Physiology
Supervisor	: Professor YS Chan
Field of study	: Neuroscience
Current position & institution	: Associate Professor, Department of Neuropathology, Tianjin Institute of Neurology, General Hospital of Tianjin Medical University, Tianjin
Contact information	: Department of Neuropathology, Tianjin Institute of Neurology, General Hospital of Tianjin Medical University, 154 Anshan Road, Tianjin 300052, PR China Email: wangqiantni@yahoo.com.cn Fax: 86-22-27839991

Dr XING Bing

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Dr ASY Lau
Field of study	: Proteomic Studies of Invasive Pituitary Adenoma
Current position & institution	: Associate Professor, Department of Neurosurgery, Peking Union Medical College Hospital, Beijing
Contact information	: Department Neurosurgery, Peking Union Medical College Hospital, 1 Shuaifuyuan, Beijing 100730, PR China Email: xingbingemail@yahoo.com.cn

Research Assistants

Dr CAO Yuelong

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Dr WW Lu
Field of study	: Orthopaedic Biomaterials
Current position & institution	: Associate Professor, Research Institute of Orthopaedics and Traumatology, Shuguang Hospital affiliated to Shanghai University of Traditional Chinese Medicine, Shanghai
Contact information	: PO Box 110, Research Institute of Orthopaedics and Traumatology, Shuguang Hospital affiliated to Shanghai University of Traditional Chinese Medicine, Shanghai, 201203, PR China Email: caoyuelong@yahoo.com Fax: 86-21-51328421

Dr GUO Tianhuan

Receiving Department	: Pathology
Supervisor	: Professor G Srivastava
Field of study	: The Role of Caspases in Apoptosis
Higher degree study in HKU	: PhD
Current position & institution	: PhD student, Department of Pathology, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Department of Pathology, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 120, University Pathology Building, Queen Mary Hospital, 102 Pokfulam Road, Hong Kong Email: huan95@yahoo.com

Dr LIU Haining

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor WSB Yeung
Field of study	: Reproductive Medicine
Current position & institution	: Associate Professor, Reproductive Center, The Affiliated Hospital of Medical School of Qingdao University
Contact information	: The Affiliated Hospital of Medical School of Qingdao University, 16 Jiangsu Road, Qingdao, Shandong 266003, PR China Email: haining171@yahoo.com.cn

Dr SONG Yuqing

Receiving Department	: Psychiatry
Supervisor	: Professor SW Tang
Field of study	: Biochemistry of Mental Health or Psychopharmacology
Higher degree study in HKU	: PhD
Current position & institution	: PhD student, Department of Psychiatry, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Department of Psychiatry, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 10-64, Laboratory Block, 21 Sassoon Road, Pokfulam, Hong Kong Email: h0594004@hkusua.hku.hk Fax: 852-28199550

Ms WANG Fang

Receiving Department	: Biochemistry
Supervisor	: Dr DKY Shum
Field of study	: Mammalian Visual System Development
Contact information	: Department of Histology & Embryology, Shanghai Medical College of Fudan University, Shanghai, PR China Email: sosowf@yahoo.com.cn

Dr ZHANG Qiong

Receiving Department	: Anatomy
Supervisor	: Dr HKFYip
Field of study	: Changes of Retinal Ganglion Cell and Protecting Mechanism of Some Tropic Factors
Current position & institution	: Associate Professor, Department of Ophthalmology, Ruijin Hospital, Shanghai
Contact information	: Department of Ophthalmology, Ruijin Hospital, School of Medicine of Shanghai Jiaotong University, 197 Rujin Er Road, Shanghai 200025, PR China Email: joan_ss2004@yahoo.com.cn

Dr ZHANG Xiaomeng

Receiving Department	: Anatomy
Supervisor	: Professor YC Wong
Field of study	: The Role of Mitotic Checkpoint in Human Cancer
Higher degree study in HKU	: PhD
Current position & institution	: PhD student, Department of Anatomy, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Department of Anatomy, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 1-56, Laboratory Block, 21 Sassoon Road, Pokfulam, Hong Kong Email: happy-gene@163.com or xiao0214@hotmail.com

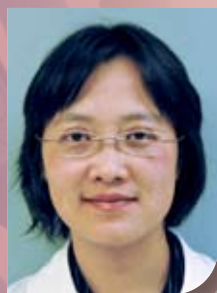

Awardees for clinical attachment

Dr TAN Li

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Dr KY Leung
Field of study	: Gynaecological Ultrasound
Current position & institution	: Deputy Chief Physician, Division of Ultrasound, Peking Union Medical College Hospital, Chinese Academy of Medical Sciences, Beijing
Contact information	: Division of Ultrasound, Peking Union Medical College Hospital, Chinese Academy of Medical Sciences, 1 Shuifuyuan, Wangfujing, Beijing 100730, PR China Email: tanlixg@163.com

Dr ZHANG Xuehua

Receiving Department	: Medicine
Supervisor	: Professor CP Lau
Field of study	: Cardiology – Echnocardiography and Regeneration Therapy
Current position & institution	: Research Associate, Department of Medicine, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Division of Cardiology, Department of Medicine, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 1930, Block K, Queen Mary Hospital, 102 Pokfulam Road, Hong Kong Email: zxuehua@yahoo.com Fax: 852-28186304

2005 - 2006

Visiting Professors

Prof LIU Yixun

Receiving Department	: Obstetrics & Gynaecology and Centre of Human Reproduction
Receiving staff	: Professor PC Ho & Dr WS O
Speciality	: Oogenesis and endometrial receptivity
Current position & institution	: Professor, Chinese Academy of Sciences; Chairman, Academic Committee of Sate Key Laboratory of Reproductive Biology, Institute of Zoology, Chinese Academy of Sciences, Beijing
Contact information	: State Key Laboratory of Reproductive Biology, Institute of Zoology, Chinese Academy of Sciences, Datun Road, Chaoyang District, Beijing 100101, PR China Email: liuyx@ioz.ac.cn Fax: 86-10-64807038

Prof SHEN Hongbing

Receiving Department	: Medicine
Receiving staff	: Professor CL Lai & Professor BCY Wong
Speciality	: Genetic and molecular epidemiology of cancer
Current position & institution	: Dean and Professor of Epidemiology, School of Public Health, Nanjing Medical University, Nanjing
Contact information	: School of Public Health, Nanjing Medical University, 140 Hanzhong Road, Nanjing 210029, PR China Email: hbshen@njmu.edu.cn Fax: 86-25-86527613

Visiting Fellows

Dr GUO Jianli

Receiving Department	: Administrative Department, Queen Mary Hospital
Receiving staff	: Ms Joyce Leung & Ms Judy Pun
Speciality	: Health Management
Current position & institution	: Director of Tsinghua University Hospital, Tsinghua University, Beijing
Contact information	: Tsinghua University Hospital, Tsinghua University, Beijing 100084, PR China Email: xyygj@tsinghua.edu.cn Fax: 86-10-62782382

Prof LI Changgang

Receiving Department	: Paediatrics & Adolescent Medicine
Receiving staff	: Professor YL Lau
Speciality	: Health Management
Current position & institution	: Head of Department of Haematology and Oncology, Shenzhen Children's Hospital
Contact information	: Department of Haematology and Oncology, Shenzhen Children's Hospital, 7019 Yitain Road, Shenzhen City, Guangdong, PR China Email: licg6336@hotmail.com Fax: 86-755-83936148

Prof LIU Liang

Receiving Department	: Pathology
Receiving staff	: Professor LC Chan
Speciality	: Health Management
Contact information	: Faculty of Forensic Medicine, Tongji Medical College, Huazhong University of Science & Technology, Wuhan, Hubei, PR China Email: liuliang@mails.tjmu.edu.cn Fax: 86-27-83692644

Research Fellows

Dr CHEN Yuxiao

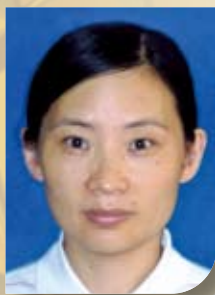

Receiving Department	: Pathology
Supervisor	: Dr FP Huang
Field of study	: Tumor suppressor gene candidates in hepatocellular carcinoma and its treatment of various sources
Current position & institution	: Professor of Immunology, Department of Immunology, Xiangya School of Medicine, Central South University, Changsha
Contact information	: Mail Box 193, 88 Xiangya Road, Changsha, Hunan 410078, PR China Email: yuxiaochen008@yahoo.com.cn

Dr LIU Huafeng

Receiving Department	: Medicine
Supervisor	: Professor TM Chan
Field of study	: Pathogenesis of glomerulonephritis, especially the pathogenesis of lupus nephritis; Pathogenesis of tubulointerstitial in chronic renal disease and its prevention; Prevention effects of Chinese medicine on the progress of renal lost in patients with chronic renal disease
Current position & institution	: Vice Director, Institute of Nephrology and Associate Professor, Guangdong Medical College; Vice Director, Kidney Division and Chief, Scientific Research Section, Affiliated Hospital of Guangdong Medical College, Zhanjiang
Contact information	: Institute of Nephrology, Guangdong Medical College, 57 Renming Road, Zhanjiang, Guangdong 524001, PR China Email: hf-liu@263.net Fax: 86-759-2387583

Dr YE Hongying

Receiving Department	: Medicine
Supervisor	: Professor KSL Lam
Field of study	: Diabetes and Diabetic complications especially diabetic nephropathy and Herbal effects on diabetes
Current position & institution	: Associate Professor, Department of Endocrinology, Huashan Hospital, Shanghai Medical College of Fudan University, Shanghai
Contact information	: Department of Endocrinology, Huashan Hospital, Shanghai Medical College of Fudan University, 12 Wulumuqi Road (Middle), Shanghai 200040, PR China Email: yhyjane@hotmail.com

Dr ZHOU Xiangdong

Receiving Department	: Medicine
Supervisor	: Professor MSM Ip & Dr JCW Mak
Field of study	: To explore effective drug strategies in patients with sleep-disorder and nocturnal hypoxia
Contact information	: Department of Respiratory Medicine, The Second Affiliated Hospital of Chongqing University of Medical Sciences, Chongqing, PR China Email: zxd999@263.net Fax: 86-23-63711527

Research Assistants

Dr CHEN Hua

Receiving Department	: Medicine
Supervisor	: Professor HFTse
Field of study	: Cardiology
Higher degree study in HKU	: MPhil
Current position & institution	: MPhil student, Department of Medicine, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Division of Cardiology, Department of Medicine, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 1930, Block K, Queen Mary Hospital, 102 Pokfulam Road, Hong Kong Email: chenmaria2003@yahoo.com.hk

Dr HUANG Haiwen

Receiving Department	: Medicine
Supervisor	: Professor RHS Liang
Field of study	: Stem cell transplantation including cord blood stem cell expansion and GUHD after stem cell transplantation
Current position & institution	: Attending Physician, Department of Hematology, The Second Affiliated Hospital of Soochow University, Suzhou
Contact information	: Department of Hematology, The Second Affiliated Hospital of Soochow University, Suzhou, Jiangsu 215007, PR China Email: sophiehww@hotmail.com Fax: 86-512-68284303

Dr HUANG Ying

Receiving Department	: Anatomy
Supervisor	: Dr HKFYip
Field of study	: Neuroscience
Current position & institution	: Lecturer, Department of Anatomy, Tongji Medical College of Huazhong University of Science & Technology, Wuhan
Contact information	: Department of Anatomy, Tongji Medical College of Huazhong University of Science & Technology, 13 Hangkong Road, Wuhan, Hubei 430030, PR China Email: wallyyu@sh163.net

Dr LI Cuilan

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor HYS Ngan
Field of study	: Pathogenesis, diagnosis and treatment of gynaecological cancer (esp. ovarian cancer), endometriosis, high risk pregnancy
Higher degree study in HKU	: PhD
Current position & institution	: PhD student, Department of Obstetrics & Gynaecology, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Department of Obstetrics & Gynaecology, The University of Hong Kong Li Ka Shing Faculty of Medicine, Room 740, Laboratory Block, 21 Sassoon Road, Pokfulam, Hong Kong Email: cuilanli@hkusua.hku.hk or cuilan_li@yahoo.com.cn Fax: 852-28161947

Dr LIU Xuan

Receiving Department	: Pharmacology
Supervisor	: Professor CH Cho
Field of study	: Pathogenic mechanism of human esophageal squamous cell carcinoma and gene therapy for hepatic fibrosis
Current position & institution	: Physician, Division of Digestive Diseases, Beijing Friendship Hospital, Capital University of Medical Sciences, Beijing
Contact information	: Division of Digestive Diseases, Beijing Friendship Hospital, Capital University of Medical Sciences, 95 Yong'an Road, Xuanwu District, Beijing 100050, PR China Email: sy_liuxuan@hotmail.com Fax: 86-10-63139246

Dr QU Chen

Receiving Department	: Pharmacology
Supervisor	: Professor RYK Man
Field of study	: Clinical research or trial project related to cardiovascular diseases
Higher degree study in HKU	: MPhil
Current position & institution	: MPhil student, Department of Pharmacology, The University of Hong Kong Li Ka Shing Faculty of Medicine
Contact information	: Room 1201, Morrison Hall, 109 Pokfulam Road, Hong Kong Email: venaqu@gmail.com

Dr TANG Liping

Receiving Department	: Medicine
Supervisor	: Professor CL Lai & Dr OO Chan
Field of study	: Effect of non-cytotoxic drug on tumor
Contact information	: Department of Gastroenterology, The First Affiliated Hospital of Chongqing University of Medical Sciences, Chongqing City, 400016, PR China Email: tangliping@medmail.com.cn

Awardees for clinical attachment

Dr CHEN Zan

Receiving Department	: Surgery
Supervisor	: Dr YW Fan
Field of study	: Neurosurgery of cerebral vascular disease
Contact information	: Department of Neurosurgery, Xuanwu Hospital Affiliated to Capital University of Medical Sciences, Beijing, PR China Email: chenzan66@sohu.com

Dr LAN Xinhai

Receiving Department	: Surgery
Supervisor	: Professor J Wong & Professor WI Wei
Field of study	: Surgery treatment of tumour of Otolaryngology
Current position & institution	: Associate Professor, Department of Otolaryngology, The First Clinical College of Guangxi University of Medical Sciences, Nanning, Guangxi
Contact information	: Department of Otolaryngology, The First Clinical College of Guangxi University of Medical Sciences, 6 Binhu Road, Nanning, Guangxi, PR China Email: lxhl1231@sina.com8

Dr MA Lijing

Receiving Department	: Surgery
Supervisor	: Professor WI Wei
Field of study	: Reconstruction of head and neck defect with free flaps
Contact information	: Department of Otolaryngology Head and Neck Surgery, Beijing Tongren Hospital, Beijing, PR China Email: mljtrent@126.com or malijingdw@hotmail.com Fax: 86-10-65264372

2006 - 2007

Visiting Professors

Prof PEI Guoxian

Receiving Department	: Orthopaedics & Traumatology
Receiving staff	: Professor KDK Luk
Speciality	: Bone tissue engineering, biomaterials and repair & reconstruction of severe limb injuries
Contact information	: Department of Orthopaedics and Traumatology, Nanfang Hospital, Nanfang Medical University, Guangzhou, PR China Email: liguanym007@yahoo.com.cn Fax: 86-20-61360066

Prof WANG Kaijuan

Receiving Department	: Medicine and Centre for Cancer Research
Supervisor	: Dr HHX Xia and Professor ST Fan
Speciality	: Epidemiology of cancer
Current position & institution	: Professor, Department of Epidemiology, College of Public Health, Zhengzhou University, Zhengzhou
Contact information	: Department of Epidemiology, School of Public Health, Zhengzhou University, 100 Science Road, Zhengzhou, Henan, 450001, PR China Email: kjwang@163.com Fax: 86-371-66996557

Prof ZHOU Rongjia

Receiving Department	: Biochemistry
Supervisor	: Professor KSE Cheah
Speciality	: Genes and molecular mechanisms of development
Current position & institution	: Professor, Department of Genetics, Wuhan University, Wuhan
Contact information	: Department of Genetics, College of Life Sciences, Wuhan University, Wuhan, Hubei 430072, PR China Email: rjzhou@whu.edu.cn Fax: 86-27-68756253

Research Fellows

Dr LIU Zijian

Receiving Department	: Physiology
Supervisor	: Professor YS Chan
Field of study	: Neuroanatomy and neurobiology
Current position & institution	: Lecturer, Department of Anatomy, Tongji Medical College, Huazhong University of Science and Technology, Wuhan
Contact information	: Department of Anatomy, Tongji Medical College, Huazhong University of Science and Technology, 13 Hangkong Road, Wuhan 430030, PR China Email: liuzj@mails.tjmu.edu.cn

Prof WANG Hongwei

Receiving Department	: Medicine
Supervisor	: Professor YL Kwong
Field of study	: Molecular mechanism of leukemia and other tumors
Current position & institution	: Vice President and Professor, Institute of Hematology, Shanxi Medical University, Taiyuan, Shaanxi
Contact information	: The Second Hospital of Shanxi Medical University, 382 Wuyi Road, Taiyuan, Shaanxi 030001, PR China Email: wanghw68@hotmail.com Fax: 86-351-3365969

Dr WANG Shengjun

Receiving Department	: Pathology
Receiving staff	: Dr LW Lu
Field of study	: Function of GITRL in modulating autoimmune reactions by preventing immunosuppression of CD4 ⁺ CD25 ⁺ regulatory T cells
Contact information	: Department of Immunology, School of Medicine of Jiangsu University, Zhenjiang, PR China Email: sjwjs@ujs.edu.cn

Dr ZHANG Wei

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Dr GCF Chan
Field of study	: Bone marrow mesenchymal stem cells
Current position & institution	: Lecturer, Department of Laboratory Medicine, Tianjin Medical University, Tianjin
Contact information	: Department of Laboratory Medicine, Tianjin Medical University, 1 Guangdong Road, Tianjin 300203, PR China Email: adazw@tom.com

Research Assistants

Dr DONG Jing

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Professor YL Lau
Field of study	: The cerebral lupus in juvenile SLE patients
Contact information	: The Affiliated Hospital of Medical College of Qingdao University, Qingdao, PR China Email: dongjing218@tom.com

Dr GUO Jiongjiong

Receiving Department	: Orthopaedics & Traumatology
Supervisor	: Professor KDK Luk
Field of study	: Spinal surgery
Current position & institution	: Attending Surgeon, Department of Orthopedics, The First Affiliated Hospital of Soochow University, Suzhou
Contact information	: Department of Orthopedics, The First Affiliated Hospital of Soochow University, 96 Shizi Street, Suzhou, Jiangsu 215006, PR China Email: gjj1977@hotmail.com Fax: 86-512-65113556

Dr LIAO Wenting

Receiving Department	: Anatomy
Supervisor	: Professor GSW Tsao
Field of study	: Mechanism of nasopharyngeal carcinoma
Contact information	: Research Department, Cancer Center, Sun Yat Sen University, Guangzhou, PR China Email: liaowt2002@yahoo.com.cn Fax: 86-20-87343171

Dr WANG Hua

Receiving Department	: Anatomy
Supervisor	: Professor KF So
Field of study	: The study of glaucoma model and neuroprotective mechanism
Current position & institution	: Chief Resident, Department of Ophthalmology, Beijing Tongren Eye Center, Capital University of Medical Sciences, Beijing
Contact information	: 中國北京朝陽區延靜里中街3號6號樓1103 Email: wanghua7573@sina.com

Dr YIN Aihua

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Dr KY Leung
Field of study	: Noninvasive prenatal diagnosis for thalassemia
Contact information	: Prenatal Diagnosis Centre, The Guangdong Province Woman and Child Hospital, Guangzhou, Guangdong, PR China Email: yinaiwa@hotmail.com Fax: 86-20-86506280

Dr ZHANG Fuquan

Receiving Department	: Psychiatry
Supervisor	: Professor PC Sham
Field of study	: Psychiatry & clinical psychology; Genetics & molecular biology
Contact information	: Yuquan Hospital, Tsinghua University, Beijing, PR China Email: zhfq@mail.tsinghua.edu.cn or csuzfq@yahoo.com.cn Fax: 86-10-88258319

Dr ZHANG Xiaoyan

Receiving Department	: Medicine
Supervisor	: Professor KN Lai
Field of study	: Tubular expression of angiotensin II receptor in IgA nephropathy
Current position & institution	: Attending Doctor, Division of Nephrology, Zhongshan Hospital of Fudan University, Shanghai
Contact information	: Zhongshan Hospital of Fudan University, 180 Fengling Road, Shanghai 200032, PR China Email: clarazhang1977@hotmail.com Fax: 86-21-64038472

Dr ZHONG Weijia

Receiving Department	: Diagnostic Radiology
Supervisor	: Dr PL Khong
Field of study	: Diagnostic Radiology
Current position & institution	: Attending Doctor, Department of Radiology, The Second Hospital of Chongqing University of Medical Sciences, Chongqing
Contact information	: Department of Radiology, The Second Hospital of Chongqing University of Medical Sciences, Chongqing 400010, PR China Email: zhongweijia@gmail.com

Awardees for clinical attachment

Dr BAI Xiaohong

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Dr EHY Ng
Field of study	: Assisted reproductive techniques, ART
Contact information	: General Hospital of Tianjin Medical University, Tianjin, PR China Email: echopang@public.tpt.tj.cn Fax: 86-22-27813550

Dr FENG Xielin

Receiving Department	: Surgery
Supervisor	: Professor ST Fan
Field of study	: Hepatobiliary surgery – liver cancer, transplantation, endoscopic and laparoscopic surgery; Cancer gene therapy
Contact information	: Sichuan Cancer Hospital/Institute, Chengdu, Sichuan, PR China Email: fengxielin@sina.com or llxxff17@163.com Fax: 86-28-85420116

2007 - 2008

Visiting Professors

Prof JIANG Chaoqiang

Receiving Department	: Community Medicine
Receiving staff	: Professor TH Lam
Speciality	: Adverse health effects of occupational hazards and smoking; Guangzhou Biobank Cohort Study: Effects of genetic, occupational, environmental and lifestyle factors on major chronic diseases
Current position & institution	: Director and Professor, Guangzhou Occupational Diseases Prevention and Treatment Centre, Guangzhou
Contact information	: Guangzhou No. 12 Hospital (Guangzhou Occupational Diseases Prevention and Treatment Centre), No. 1, Tiangqiang Street, Huangpu Road West, Tianhe District, Guangzhou 510620, PR China Email: cqjiang@hkucc.hku.hk Fax: 86-20-38981257

Prof LI Long

Receiving Department	: Surgery
Receiving staff	: Professor PKH Tam
Speciality	: Genetic etiology for hepatobiliary malformation; Laparoscopic approach for the treatment of anorectal malformation; Pediatric living-related liver transplantation
Current position & institution	: Professor, Department of Pediatric Surgery, Capital Institution of Pediatrics, Beijing
Contact information	: Department of Pediatric Surgery, Capital Institution of Pediatrics, 2Yabao Road, Chaoyang District, Beijing 100020, PR China Email: lilong23@126.com Fax: 86-10-85628367

Visiting Fellows

Dr XIA Lei

Receiving Department	: Administrative Department, Queen Mary Hospital & Faculty Office, HKU Li Ka Shing Faculty of Medicine
Receiving staff	: Ms Joyce Leung & Miss Peggie Ho
Speciality	: Health management
Current position & institution	: Chief, Department of Training, Chinese PLA General Hospital, Beijing
Contact information	: Department of Training, Chinese PLA General Hospital, 28 Fuxing Road, Beijing, PR China Email: xialei301@sina.com Fax: 86-10-68181723

Prof ZHANG Jun

Receiving Department	: Administrative Department, Queen Mary Hospital
Receiving staff	: Ms Joyce Leung
Speciality	: Health management
Current position & institution	: Dean and Professor, Section of Gastroenterology, Department of Medicine, The Second Affiliated Hospital of School of Medicine, Xi'an Jiaotong University, Xi'an
Contact information	: Section of Gastroenterology, Department of Medicine, The Second Affiliated Hospital of School of Medicine, Xi'an Jiaotong University, Xi'an 710004, PR China Email: jun3z@163.com Fax: 86-29-87678634

Research Fellows

Dr AO Qiang

Receiving Department	: Physiology & Biochemistry
Supervisor	: Professor YS Chan & Dr DKY Shum
Field of study	: Repair for nerve and bone injuries; Biomaterials and tissue engineering
Current position & institution	: Research Fellow Assistant and Attending Physician, Yuquan Hospital; Associate Research Fellow, Tsinghua University, Beijing
Contact information	: Neural Center, Yuquan Hospital, Tsinghua University, Beijing 100049, PR China Email: aoqiang@tsinghua.edu.cn Fax: 86-10-62794214

Dr FAN Hong

Receiving Department	: Clinical Oncology
Supervisor	: Professor XY Guan
Field of study	: Mechanism of genetics and epigenetics in the carcinogenesis and its development
Current position & institution	: Head, Laboratory of Epigenetic; Associate Professor, Key Laboratory of Developmental Genes and Human Disease, Ministry of Education; Department of Genetics & Developmental Biology, School of Basic Medical Sciences, Southeast University, Nanjing
Contact information	: State Education Ministry Laboratory of Developmental Genes and Human Disease, Genetics Research Center, Department of Genetics & Developmental Biology, Medical School of Southeast University, 87 Dingjiaoqiao Road, Nanjing, 210009, PR China Email: fanhong66@yahoo.com.cn or fanh@seu.edu.cn Fax: 86-25-83220761

Dr HAN Lizhong

Receiving Department	: Microbiology
Supervisor	: Dr PL Ho
Field of study	: Molecular epidemiology of methicillin-resistant Staphylococcus aureus in Shanghai
Current position & institution	: Assistant Professor, Department of Clinical Microbiology, Ruijin Hospital, Shanghai Jiaotong University, Shanghai
Contact information	: Department of Clinical Microbiology, Ruijin Hospital, 197 Ruijin Er Road, Shanghai 200025, PR China Email: lizhong_han@yahoo.com

Dr LIU Qianqi

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Dr PT Cheung
Field of study	: Analyzing the association of VNTR and polymorphism of insulin gene with Chinese IDDM and young obese patients
Current position & institution	: Associate Professor and Vice Chief Physician, Department of Paediatric Endocrinology, The Affiliated Nanjing Children Hospital of Nanjing Medical University, Nanjing
Contact information	: The Fourth Clinical Medical College, Affiliated Nanjing Children Hospital of Nanjing Medical University, 140 Hanzhong Road, Nanjing, Jiangsu 210029, PR China Email: qqliu1129@sohu.com

Dr ZHANG Shanzhong

Receiving Department	: Diagnostic Radiology
Supervisor	: Dr PL Khong
Field of study	: Magnetic Resonance Imaging (MRI) in solid organ transplantation and islet transplantation with newly developed super paramagnetic iron oxide (SPIO) image enhancer
Contact information	: Shanghai First People's Hospital, Shanghai Jiaotong University, 85 Wujin Road, Hongkou District, Shanghai 200080, PR China Email: sz_zhang@online.sh.cn

Dr ZHANG Zhihong

Receiving Department	: Public Health Research Centre
Supervisor	: Dr CM Wong
Field of study	: Air pollution and health hazards
Current position & institution	: Associate Professor, Department of Environmental Health, School of Public Health, Shanxi Medical University, Shaanxi
Contact information	: Department of Environmental Health, School of Public Health, Shanxi Medical University, 56 Xinjian South Road, Taiyuan, Shaanxi 030001, PR China Email: zzh8759@yahoo.com.cn

Research Assistants

Dr WAN Haixia

Receiving Department	: Medicine
Supervisor	: Professor RHS Liang & Dr YH Leung
Field of study	: Gene regulation of leukemia stem cells with special reference to putative stem cell pluripotency
Current position & institution	: Resident, Hematology Department, Renji Hospital, Shanghai Jiaotong University, Shanghai
Contact information	: Hematology Department, Renji Hospital, Shanghai Jiaotong University, 145 Middle Shandong Road, Shanghai 200001, PR China Email: haixiawan@tom.com or aurorawan@126.com

Dr YANG Fang

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor WSBYeung
Field of study	: 3D ultrasound and prenatal diagnosis
Current position & institution	: Chief Doctor and Lecturer, Department of Obstetrics & Gynaecology, Zhujiang Hospital, Southern Medical University, Guangzhou
Contact information	: Department of Obstetrics & Gynaecology, Zhujiang Hospital, Southern Medical University, Guangzhou, Guangdong 510280, PR China Email: fangfangy2003@yahoo.com.cn Fax: 86-20-61643010

Dr YU Jiaole

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Professor YL Lau
Field of study	: Complication of Leukemia
Contact information	: Beijing Children's Hospital, Capital University of Medical Sciences, Beijing, PR China Email: yujiaole369@163.com Fax: 86-10-68011503

Dr ZHANG Ke

Receiving Department	: Biochemistry
Supervisor	: Dr JD Huang
Field of study	: Screening for small noncoding RNA regulating bacterial swarming
Current position & institution	: Teaching Assistant and Teaching Secretary, Parasitology Department, Basic Medical College of Guiyang Medical University, Guiyang
Contact information	: Parasitology Department, Guiyang Medical University, 9 Beijing Road, Guiyang, Guizhou 550004, PR China Email: kevin312_112@yahoo.com.cn

Dr ZHOU Xuan

Receiving Department	: Public Health Research Centre
Supervisor	: Dr SSC Chan
Field of study	: Tobacco control and smoking cessation
Contact information	: School of Nursing, Southern Medical University, Guangzhou, Guangdong, PR China Email: xuan724@fimmu.com

Awardees for clinical attachment

Dr JIANG Min

Receiving Department	: Paediatrics & Adolescent Medicine
Supervisor	: Professor YL Lau
Field of study	: Neonatal Infectious Disease
Current position & institution	: Resident, Neonatal Department, Beijing Children's Hospital, Capital University of Medical Sciences, Beijing
Contact information	: Beijing Children's Hospital, Capital University of Medical Sciences, 56 Nanlishi Road, Beijing 100045, PR China Email: jiangmin7496@sina.com Fax: 86-10-68011503

Dr ZHANG Tao

Receiving Department	: Surgery
Supervisor	: Professor WI Wei
Field of study	: Head-neck reconstruction and head neck tumor
Current position & institution	: Associate Professor, Department of Oral and Maxillofacial Surgery, Peking Union Medical College Hospital, PUMC & CAMS, Beijing
Contact information	: Department of Stomatology, Peking Union Medical College Hospital, PUMC & CAMS, 1 Shuaifuyuan, Wanfujing, Beijing 100730, PR China Email: zht1688@yahoo.com.cn Fax: 86-10-65296337

Dr ZHU Yingjun

Receiving Department	: Obstetrics & Gynaecology
Supervisor	: Professor HYS Ngan
Field of study	: Gynaecologic oncology
Current position & institution	: Deputy Attending Physician, Tianjin Central Hospital of Obstetrics & Gynaecology, Tianjin
Contact information	: Tianjin Central Hospital of Obstetrics & Gynaecology, 146 Yingkou Road, Tianjin 300052, PR China Email: zhuyj8072@sina.com

Greetings from Fellows

Dr MA Runmei, RF, Department of Obstetrics & Gynaecology (1999/2000)

The time flies like the wind. It seems like yesterday but it had been seven years since I completed my training at the Department of Obstetrics & Gynaecology, The University of Hong Kong from October 1999 to October 2000 as a Dr Cheng Yu Tung Research Fellow.

During that period, I was attached to the High Risk Team in Perinatal Medicine at Queen Mary Hospital under Professor Terence Lao's supervision. The benefits I obtained from this special studies are boundless. I gained not only insights and experience in the approach to the management of high-risk pregnancies. It also widened my vision and improved my understanding of what professionalism is.

After completion of my training in Hong Kong, I returned to my home institution at the end of 2000, and then was appointed as the Head of Department of Obstetrics and Gynaecology at the First Affiliated Hospital of Kunming Medical College in early 2001. With the continuing support from The University of Hong Kong, I established the first Maternal-Fetal Medicine Centre in Yunnan Province in 2003. Now it has developed better than expected with increasing reputations in Yunnan and even in China due to its great contributions to motherhood safety and infant health. Furthermore, the results of the collaborative research between HKU and the First Affiliated Hospital of Kunming Medical College have been or are being prepared for international publication.

Through the Dr Cheng Yu Tung Fellowships, my achievements extend beyond enhancement of knowledge. More importantly, personal development, character-building and moral training are also emphasized during my training.

The last but not least, I would like to take this opportunity to express my sincere appreciation to all the colleagues and staff who helped me in Hong Kong and especially Professor Terence Lao. He gave his encouragement and support to my career. I may not be his best student, but he is always my best teacher!

Dr XUE Weicheng, RA, Department of Pathology (1999/2000)

在慶祝“鄭裕彤博士獎助金”成立十年之際，我和太太李靜（鄭裕彤博士獎助金2001/2002年度的研究助理）對鄭博士的慷慨資助和香港大學的悉心培養表示由衷的感謝和敬意。我們願以感恩的心投入國家的醫療衛生事業建設中，全身心地服務大眾，不負鄭博士和香港大學的栽培。

Dr CAO Jingming, RA, Department of Pharmacology (2000/2001)

我在2000/2001年度獲得鄭裕彤博士獎助金到香港大學醫學院進修學習。我非常感激醫學院藥理學系的文英強教授給我的寶貴機會，讓我這個擁有近20年臨床經驗的心內科大醫接觸到著名的港大醫學院瑪麗醫院心內科負責人——劉柱柏教授，並且讓我到心內科學習。在短短的六個月當中，我的學術生涯產生了重大的改變；實現了人生的再次騰飛，在冠心病冠脈介入診治方面取得根本性的突破，進步很大。我所領導的雲南省科技廳國際合作交流項目《冠脈血管內超聲評價藥物深層支架置放後再狹窄及血管內膜增生》更獲雲南省科技廳資助20萬元人民幣，並於最近已完成了課題驗收和科技獎項申報。此與港大醫學院心內科合作的項目，是雲南省首次應用冠脈內超聲的科研探題，現已成功完成，並得到高度評價。

本人於2001年於港大進修返回昆明醫學院第一附屬醫院後，立即被聘為臨床教授及碩士研究生導師。到目前為止，已培養研究生14名，已畢業者8名。大部份研究生通過病冠脈介入及冠脈內超聲的研究和學習，在國內和省內擔負了骨幹醫生的作用。本人在我院的冠心病診治，尤其是冠脈介入的診治中，在全省起重要的影響，貢獻卓越，成績斐然。

Dr LI Songjian, RF, Department of Orthopaedics & Traumatology (2001/2002)

本人於2002年獲得鄭裕彤博士獎助金資助在香港大學醫學院骨科學系進修一年。在這一年裡，深感香港大學骨科學系人才匯聚，學術思想活躍，緊貼學術潮流，科研人員不斷創新，學術成果豐富。他們的敬業精神值得學習。科研組在呂維加副教授的帶領下，學術氣氛濃厚，嚴謹活學，形成了一個出色的科研團隊。

作為一名臨床骨科醫生，這一年裡，我盡可能多利用寶貴的學習時間在骨腫瘤及關節鏡組參加臨床實踐，受益尤其良多。經過這一年的學習，回到南方醫科大學珠江醫院後，積極開展了膝、髖、肩、踝、肘關節鏡手術，並發展了膝關節鏡下前後交叉帶重建術，關節鏡下肩關節損傷縫合錨釘固定術等較為複雜的手術，為我院骨科微創技術的發展，開拓出一片新的領域。在此，尤其感謝骨科學系同仁，尤其是錢平名譽副教授、葉國興助理教授、惠國及江金富兩位名譽助理教授等專家給予的教導和關心。感謝梁智仁教授和周肇平教授給予學術和生活上的關心和照顧。

Dr LIAO Linchuan, RF, Department of Pathology

(2001/2002)

Since I finished the advanced training in The University of Hong Kong and returned to Sichuan University, I began to apply what I had learnt to different aspects of my work, including teaching, management and scientific research. The advanced training experience is a very important step in my career. It helped me built up my academic knowledge, broadened my vision in research, and refreshed me with new techniques. After I came back to Sichuan University, I have made great progress and achieved a lot in my work.

I obtained a series of grant from Sichuan Province such as *National Natural Science Foundation of China* (2004~2006): Relationship between addictive and tolerance mechanisms and special pharmacokinetics of addicting substances and *Fund of Sichuan Province* (2005~2007): Physiological Disposition and Hepatic and Renal Toxicological Research of Aristolochic Acid in the Traditional Chinese Medicine.

My department is also conducting work on the fast and sensitive reasonable assay methods of various poisons including abused drugs in the biological sample and finding the special pharmacokinetic regulations of addictive substances. The new techniques and ideas I learned in The University of Hong Kong enable me to find ways to improve this work. We published a series of articles in core journals and some of them were collected by SCI, and we have also published 2 textbooks of Forensic Analytical Toxicology (Liao LC as chief editor).

As a mentor, I have 7 postgraduate students graduated under my supervision. There are 3 doctoral candidates and 13 postgraduate candidates conducting research in our lab.

I was deeply impressed by the advanced administration system in The University of Hong Kong, in both research and education. With the application of the management skills that I learnt at HKU, my ability and efficiency have improved greatly and I have participated in more and more management works. Now I am also the Vice Chief of Academic Affairs of Sichuan University.

My training under the Dr Cheng Yu Tung Fellowships was very precious to me. My whole career has changed and I have reached a new height because of it. I believe that I will continue to benefit from it in the future.

Dr RONG Rong, RA, Department of Medicine

(2001/2002)

Being a Dr Cheng Yu Tung Fellow is one of the most important milestones of my scientific career. In 2001, I had the honour to become a Dr Cheng Yu Tung Fellow. I had the precious chance to further my training under the supervision of Professor Karen Lam in the Department of Medicine. The Fellowship did not only give me the opportunity to learn up-to-date techniques, it also opened my horizon and reinforced me the determination to pursue my PhD study in The University of Hong Kong. Without the Fellowships programme, it would not be possible for me to have the chance to work in such a prestigious laboratory in the field of diabetes. What I have learnt through the Dr Cheng Yu Tung Fellowship founds the basis of my future career. I am proud of being a Dr Cheng Yu Tung Fellow. The experience is unforgettable to me.

Dr CHEN Baiyu, RA, Department of Anatomy

(2002/2003)

I would like to take this opportunity to express my deepest gratitude to the Dr Cheng Yu Tung Fellowships, which allowed me to receive scientific training in The University of Hong Kong. During the half year as a Fellow, I had learnt how to investigate scientific issues, to design and carry out research experiments, and analyze the experimental outcomes. My supervisors, Dr David Tay and Professor KF So, have given me their unconditional help, endless support, encouragement and invaluable advices to my research work. This experience is a great treasure to me as it benefited my work as well as my whole life. Under the help of my supervisors and following the Dr Cheng Yu Tung Fellowships, I got the chance to be a MPhil student of HKU, and then I got my PhD 3 years later. These two degrees are a big step forward for my research career. Last but not least, the life in Hong Kong has left me the most beautiful memory in my life. I love Hong Kong! I love The University of Hong Kong!

Dr HUANG Baoyan, RA, Department of Nursing Studies

(2002/2003)

在香港大學短短數月的學習和訪問給我留下了非常美好的印象，那的人和事至今讓我久久難以忘懷。首先要感謝鄭裕彤博士慷慨資助，讓我有機會走出自己的校園，訪問仰慕已久著名的香港大學醫學院。其次要感謝獎助金管理委員會的相關工作人員，在獲得獎助金前後以及在訪問期間，我都感受到他們認真的做事態度和對我們的無比關愛。在訪問期間我主要在護理學系學習和工作，陳肇始博士是我的導師，她為我作出了非常悉心的安排，有專門的研究人員協助我的研究工作。同時每週安排一次工作進展的彙報並了解我的學習需求。護理學系教師嚴謹的科研態度和治學精神深深地感染了我，同時我也從他們那學到很多新的研究理念和方法。訪問結束回到協和醫科大學後，我有了更強烈的迫切感，立即開始了碩士研究生課程的學習。在學習期間獨立完成了一個關於臨床老年患者護理的研究課題。畢業後我繼續在護理學院任教，主要負責教學工作，同時我也成為目前學校研究課題的課題組成員。

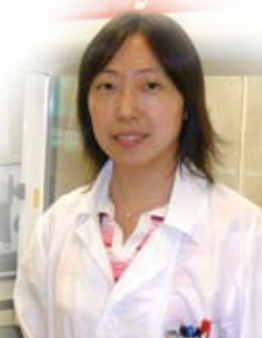

短暫的學習訪問讓我受益匪淺，再次感謝香港大學各位教師員工的諄諄教誨與熱心關注。

Dr JIN Ou, RA, Department of Medicine

(2002/2003)

My training in the Faculty of Medicine under the Dr Cheng Yu Tung Fellowships opened a new door in my academic life, and brought me the precious opportunity to learn the latest progress in my research field. The following 4 years' study in The University of Hong Kong as a PhD student provided many chances for me to get in touch with scientists and doctors all over the world in the field of rheumatology. This will definitely benefit my future work after my return to Mainland China.

Professor SHI Chengren, VP, Department of Surgery

(2003/2004)

I have been to The University of Hong Kong and Queen Mary Hospital as a Visiting Professor twice under the Dr Cheng Yu Tung Fellowships, and participated in academic communications, clinical rounds, and surgical operations in order to learn new surgical techniques and enhance my understanding in the operation of Division of Paediatric Surgery in Queen Mary Hospital.

I am deeply impressed with the advanced laboratory equipments and research work being conducted at HKU. Further to the visit, a communication platform has been established for training of medical officers at Shanghai Children's Medical Center and Xinhua Hospital.

Professor Paul Tam has made great contribution to this training project. He has invited more than seven famous foreign professors to give academic lectures, and introduce new theories and methods to our hospitals. We also had the chance to display our clinical and research abilities to our foreign colleagues.

To further our research collaborations, we have offered tumor specimens to Queen Mary Hospital to conduct research cooperation prospect. In the years to come, I wish to continue our young medical officers' training programme, enhance our medical research cooperation, and have more opportunities for exchange/visit of professors from both sides, with the help of the Dr Cheng Yu Tung Fellowships.

Dr ZHU Yong, RF, Department of Orthopaedics & Traumatology

(2003/2004)

我是湖南第一個獲得鄭裕彤博士獎助金資助到瑪麗醫院研修的醫生，非常感謝周肇平教授、梁加利醫師、呂維加博士的指導，使我系統地掌握了AO Foundation最新的骨折治療理念，並在湖南省率先開展微創經皮鋼板內固定手術治療四肢長骨及關節周圍粉碎骨折，優秀的治療效果獲得同行的好評。

Dr MA Li, RA, Department of Biochemistry

(2003/2004)

I had worked for 6 months in Department of Biochemistry at The University of Hong Kong as a Dr Cheng Yu Tung Fellow in 2003/2004. My supervisor was Dr MH Sham, a kind and earnest scientist. I went through a solid training not only on the methodology of research, but also on how to think like a scientist. Now I am a PhD student in the Faculty of Dentistry and Dr Sham is co-supervising my research work. She is always available to help me in case I have problems. It is the third year of my PhD study and I have published 3 conference papers and 3 full articles in international journals. I would like to take this opportunity to express my deepest thanks to Dr Cheng Yu Tung for his generous support and Dr Sham for her kind help on my research. Before 2003, I am just a qualified dentist, but now I am a qualified researcher as well. Thanks!

Dr LI Zhongfang, VF, Department of Surgery

(2003/2004)

2003年底我有幸獲鄭裕彤博士獎助金的資助，在香港大學瑪麗醫院進行了短期訪問。雖然只有短短的一個月，卻使我獲益良多。瑪麗醫院先進的管理、一流的設備和技術給我留下了深刻的印象。回國後，我把我在瑪麗醫院學到的先進經驗，應用於西安交通大學第二醫院的工作，取得了很好的效果。

其中，每週定期組織年輕醫生和研究生進行病案討論和工作匯報，能有效培養他們多方面的能力，如團隊合作精神。在共同討論的過程中，學生們學會接納他人的意見，共同進步；討論發言也培養了學生清楚並簡潔地表達自己思想的能力，並且能夠在討論中受到他人思路的啟發。

我亦建立了一套完整詳細的病例登記冊，全面記錄每個病人詳細的臨床資料，包括患者的一般情況、手術前後的化驗結果等資料。病人出院後，這些資料會被裝釘成冊，分類統一保管。這為進行大規模的臨床病案分析提供了準確、詳實的資料，也減輕了在病案室查找病歷的繁瑣工作。

另外，我引進了先進的數字化信息管理系統以優化了就醫環境，提高醫療服務質量。規範成熟的醫療流程提高了醫務人員的工作效率，為患者提供便捷的服務；出色有效的後勤服務對醫療工作的實施起到良好的支持作用。這些科學的醫療管理制度和方法不但為患者提供了優質、高效的服務，並且為醫院的發展建設奠定了堅實的基礎。

諸如此類的例子還有很多，難以一一列舉。這次短暫的訪問學習收穫確實非常豐富，讓我開闊了眼界，接受了一流的學術理念，對我今後臨床、科研、教學和管理工作的指導意義。

Dr JIANG Zidong, RF, Department of Physiology

(2003/2004)

我是蔣子棟醫生，鄭裕彤博士獎助金2003/2004年度的研究員，在香港大學醫學院生理系進行合作研究。在進入香港大學之前，我已經在國內獲得博士學位，並且從事眩暈疾病的基礎與臨床應用研究。由於國內條件的限制，使得一些課題研究不能深入進行。香港

大學醫學院生理系陳應城教授和黎振航博士在耳石器功能及前庭發育學研究有著較高深的造詣，在他們的指導下，我完成了《鼓室注入慶大黴素治療眩暈》的部分基礎研究，為我回國後得到人事部基金資助打下良好基礎。在香港一年中，我收穫良豐，完成自己四個子課題，利用休息時間在瑪麗醫院、威爾斯親王醫院拜師觀摩手術，以便回國後開展新的工作。2004年回到北京協和醫院後，順利被聘為副教授，獲得國家、醫院多項研究基金資助，在國內眩暈疾病的診治方面取得成就，現為中華耳鼻咽喉頭頸外科眩暈組委員、編委，參加中華醫學會中華耳鼻咽喉頭頸外科分會主持《梅尼埃病和良性陣發性位置性眩暈診斷標準和治療指南》的制訂，並參與國家十一五攸關課題《眩暈疾病診治標準》的研究。在香港短短的一年研修，實是我事業進程的加油站。

Dr LI Zijian, RA, Department of Orthopaedics & Traumatology

(2003/2004)

感謝鄭裕彤博士的捐助，以及所有鄭裕彤博士獎助金管理委員會的工作人員的幫忙，使我有機會在香港大學骨科學系進行為期半年的學習與交流。回國後，我把在此期間所學到的手術方法，應用於臨床工作上，受益匪淺。同時，在港學習期間與其他獎助金得主結下了深厚的友誼，並度過了非常難忘的時光。

再次感謝鄭裕彤博士、鄭裕彤博士獎助金管理委員會的工作人員、導師葉國興博士和香港大學骨科學系的所有醫生。

Professor ZHUANG Shimei, VP, Department of Pathology

(2004/2005)

我在2004年底獲得鄭裕彤博士獎助金資助，成為訪問教授到香港大學病理學系進行了為期一個月的合作交流。訪問期間，我與香港大學醫學院腫瘤研究領域的相關科研人員進行了深入的學術交流。回到中山大學生命科學院基因工程教育部重點實驗室後，我一直與香港大學保持密切的聯繫，尤其是與病理學系的陳立昌教授和方平博士開展了協作研究，並從關新元教授實驗室獲得了實驗技術和實驗材料方面的幫助。我覺得廣州與香港有天然的地理優勢，應加強兩地的合作交流，而鄭裕彤博士獎助金便為兩地的合作架起橋樑。我衷心感謝鄭裕彤博士獎助金，讓我有機會了解香港大學，並與之建立密切的合作，這對於我的學術研究意義深遠。

謝謝！

Dr HUANG Ying, RF, Department of Medicine

(2004/2005)

我榮幸地獲得了2004/2005年度鄭裕彤博士獎助金，讓我從重慶直轄市來到了香港，感受了世界一流大學的風采。

這是我人生經歷中重要的一年，讓我直觀、真切地感受到西醫臨床和科研的點點滴滴。香港大學醫學院一流的科研設施、嚴謹的治學態度、全球化的學術交流、不懈的探索精神深深地震撼了我。

香港也讓我體驗了在不同體制下的社會生活以及文化沖擊，增加了閱歷，加深了對人生的理解。

在港大醫學院一年的研修成果，讓我獲得了2006年度重慶市科委自然科學基金的資助，繼續相關的科研工作。這一年的經歷已深深影響著我現今的臨床、教學、科研工作。我的學生也能從中分享我的經驗及使命，盡心服務患者，並在我院國際化路程中盡綿薄之力。

Dr WANG Qian, RF, Department of Physiology (2004/2005)

I am so glad to learn that the Dr Cheng Yu Tung Fellowships programme is stepping into its 10th Anniversary. Under this programme, I spent a very happy and meaningful year in HKU. I find the year in Hong Kong very helpful to my research work.

The most important knowledge I acquired was how to manage and maintain a modern laboratory. I found laboratories at HKU open, effective and well-ordered, and began to learn the rules which were strict yet scientific. On my return, I tried to transfer what I learned to our own laboratories and have established a comprehensive system of laboratory regulations. I am now the supervisor of our laboratory which can serve almost all needs of molecular pathological and molecular biological study for the Tianjin Medical University and even some research work for the General Hospital of Tianjin Medical University.

During my research training in HKU, Professor YS Chan in the Department of Physiology and Professor DKY Shum in the Department of Biochemistry led me to the research field of glycoprotein and extracellular matrix. On my return, I began to learn the protective effects of extracellular matrix on glioma invasion and metastasis. I have successfully obtained a Key Project of Tianjin Municipal Foundation of Nature Science on this topic, and have a master student recently graduated on this field of research.

I also made several friends in Hong Kong. Our friendship is precious to me. We keep contact with each other regularly. They make my life colourful and meaningful.

At the end, I want to give my sincere thank to Dr Cheng Yu Tung and the Fellowships program. I also want to say "thank you" to all the professors, technicians, and staff who had helped me selflessly in HKU. I hope the Programme will help more and more Fellows to fulfil their dreams in research and clinical works.

Dr SONG Yuqing, RA, Department of Psychiatry (2004/2005)

首先感謝鄭裕彤博士慷慨解囊和香港大學的全力支持，為我們這批內地的醫生提供了一次難得的機會到港大醫學院學習進修。

在港大，我們可接觸和學習到發達地區先進的醫療、科研和管理體系。其中的精神醫學有許多領域優於內地。譬如，精神醫學系的社區醫學具有世界一流水平，為香港精神疾病患病者提供一系列有效的康復治療措施。另外，我在這裡受到世界知名的鄧兆華教授和沈伯松教授在臨床和科研方面的悉心指導，使我的知識和能力有了一定的提升，並且他們和其他教授、醫生和同學的刻苦敬業精神也成為我今後學習的楷模。

現在，我已成為港大醫學院精神醫學系的一名博士生，正在接受更有系統和嚴格的科研訓練。相信這些都會有助我將來返回內地從事精神衛生的工作。

**Dr GUO Jianli, VF, Administrative Department,
Queen Mary Hospital**

(2005/2006)

我在2005/2006年度獲得鄭裕彤博士獎助金到香港大學瑪麗醫院觀摩學習。在這期間我得到瑪麗醫院行政總監梁文甫先生和潘潤珠女士的熱情接待和大力支持，在他們的幫助下我了解了香港醫療體制運行模式、瑪麗醫院的管理模式、醫院院感工作、護理工作、信息化管理及社區醫療等我感興趣的範疇。通過短短四周的觀摩學習，我從中學學習到很多先進的管理理念，尤其是在護理工作、院感工作及社區醫療方面收獲頗豐。

目前我已將許多在瑪麗醫院學到的出色做法和理念應用到自己在清華大學醫院的工作當中，不斷提高醫院的管理水平，編制了醫院的工作制度，加強了醫院人文環境的建設，設立了醫院院感工作及護理操作流程的培訓，並已收到了明顯的效果，得到師生的認同。我非常感謝鄭裕彤博士獎助金計劃及香港大學給我這次機會，讓我了解很多先進的管理經驗，學到多角度的思維模式，對我的工作有很大的幫助。

Dr HUANG Haiwen, RA, Department of Medicine

(2005/2006)

Owing to Dr Cheng Yu Tung Fellowships, I had the opportunity to study in HKU from September 2005 to February 2006. I was so lucky that my supervisors (Professor Raymond Liang, Dr Albert Lie and Dr Leung Yu Hung) were very kind to me. The experience in HKU is very precious. I learned a lot of things, including clinical experiences and experimental techniques from them, which make it possible that I can conduct research independently when I came back to China. After I returned to China, we also began the co-operation between HKU and Suzhou University in the field of myeloma treatment.

Although the fellowship lasted only 6 months, my experience in HKU will benefit all my life. Thanks to this fellowship for giving us an opportunity to co-operate with Hong Kong in the field of medicine.

**Dr LAN Xinhai, awardee for clinical
attachment, Department of Surgery**

(2005/2006)

首先非常感謝鄭裕彤博士，及鄭裕彤博士獎助金，給我一個千載難逢的機會到香港學習。雖然是短短的三個月時間，我卻獲益匪淺，對我現在的工作幫助很大。在瑪麗醫院耳咽喉頭頸外科學習期間，師從韋霖教授，他和他的同道們熱情大方，知識淵博，醫療技術精湛，非常敬業。香港同胞熱情好客，非常有禮貌。短暫的三個月，要說的話還很多很多，感觸很深，我想它會影響我的一生。在此我再一次對我在香港期間曾給過我關心、幫助的老師、朋友們說一聲：謝謝！

**Professor WANG Kaijuan, VP, Department of Medicine and
Centre for Cancer Research**

(2006/2007)

As a recipient of Dr Cheng Yu Tung Visiting Professorship 2006/2007, I have successfully completed a 4-week exchange at The University of Hong Kong in August-September 2006. I visited several laboratories there. The investigators from The University of Hong Kong have extensive experience in research. All laboratory techniques are well established. The Fellowships programme has promoted academic and expertise exchange, and ensured the successful completion of the proposed project.

I also had discussions with researchers there and explored possibilities for future collaboration. I have found this experience very rewarding and it turned out to be a great learning opportunity for me. I was not only able to learn from their teaching and research experiences, but also to have a better understanding of the science and technology development in Hong Kong. I have established collaborative relationships with the Faculty there and still keep in touch with them.

I greatly appreciated the Fellowship from Dr Cheng Yu Tung. The support provided me a valuable opportunity to establish collaborative relationships with scholars in The University of Hong Kong, which proved to be beneficial to all parties of our collaborative project.

**Dr ZHANG Wei, RF, Department of Paediatrics &
Adolescent Medicine**

(2006/2007)

我在接受培訓期間，親身感受到香港國際化都市的繁榮及了解香港的風土人情。香港大學的豐富資源(無論是圖書館的建設，還是體育設施都是國內大學無法比較的)，以及濃厚的學術氣氛都給我留下了深刻的印象。而最重要的是我在專業領域上有極大的收穫。那裡的實驗室運作模式規範合理而有序，大型儀器由專人負責使用以及進行人員的培訓，這是值得我們國內借鑒的。在導師陳志博士的指導下，我學習了新的實驗技術，提高了自己的科研技能。導師敏銳的科研思路，香港的科研態度也使我受益匪淺。最重要的是他所強調而身體力行做到的「團隊精神」，更將伴我前行。

能得到鄭裕彤博士獎助金在香港大學接受培訓一年是我的榮幸。

Professor LI Long, VP, Department of Surgery

(2007/2008)

Dr Cheng Yu Tung Fellowships provided me with a valuable chance for me to visit my long-term collaborators, Professor Paul Tam, Dr KL Chan and Dr Wei Cheng, who taught me the paediatric laparoscopic surgery technique and how to do laparoscopic splenectomy, anorectoplasty, herniorrhaphy and many more back in 1999. I applied what I learned and quickly developed paediatric laparoscopic surgery in the Beijing Children's Hospital of Capital University of Medical Sciences. Now my department at the Capital Institution of Pediatrics has become the most famous center in Mainland China. 1862 laparoscopic operations have been undertaken and 345 paediatric surgeons have been trained here. Professor ST Fan and Professor CM Lo had also showed me their wonderful skills in paediatric liver transplantation. On December 12, 2001, Professor Fan helped me to perform a living-related paediatric liver transplantation. Since then, I manage to develop the same procedure in Beijing. This opportunity led me into the advanced medical world, broadened my horizon and enriched my professional life.

Dr FAN Hong, RF, Department of Clinical Oncology

(2007/2008)

香港大學是香港歷史最悠久的大學，亦為國際知名的高等學府，教研成績顯赫，肩負著香港、中國、亞洲及世界各地學術交流樞紐的重任。香港大學生命科學的研究成績更是碩果累累，吸引了無數學子前往港大深造、學習。港大在腫瘤方面的研究成果亦是世界矚目。相信在香港大學醫學院臨床腫瘤部的學習和研究，將推動我們東南大學遺傳學研究中心腫瘤發病機制的研究。

關新元教授所從事的腫瘤研究，尤其是肝癌轉移機制的研究，一直是我們課題組的研究興趣。目前我們已經獲得了肝癌發生相關的表現遺傳學機制方面的研究結果，並發現DNA甲基轉移 DNMT3B可以調控腫瘤轉移抑制基因的表達，為了進一步探討DNMT3B調控腫瘤相關基因表達的表現遺傳學機制，我們擬在港大臨床腫瘤部合作研究肝癌轉移的表現遺傳學機制。

非常榮幸獲得鄭裕彤博士獎助金，也非常感謝鄭裕彤博士獎助金的資助，使我得以有機會在港大進一步發展我的科學研究。

**Dr LIU Qianqi, RF, Department of Paediatrics &
Adolescent Medicine**

(2007/2008)

正值香港回歸祖國十周年之際，鄭裕彤博士獎助金亦成立了十年。我有幸獲得了2007/2008年度的獎助金資助，開始了新的科研、學習生活。

香港是國際化的大都市，集了世界各地各行業最先進的技術。隨著香港和祖國大陸交流的不斷深入，醫學教育和科研方面的交流與合作也進一步的加強。去年我獲得資助曾到香港大學瑪麗醫院兒科和青少年學系進修，第一次看到了回歸後欣欣向榮的香港，並在劉宇隆、盧忠啟、張璧濤等教授的指導和幫助下，在兒科臨床、學術交流及兒科教學等方面受益匪淺。回來後，我們也借鑒了他們先進的臨床經驗、學術交流和教學方法在兒科教學、臨床上予以應用和推廣，取得了一定的成績。譬如，目前我們定期開展學術沙龍，加強兒科各專科之間的交流；將「問題為本學習」教學應用於兒科七年制的教學，開拓了學生的思路，改進了傳統以教為主的教學方法。

9月1日，我又再來到香港，師從於張璧濤博士，開展1型糖尿病相關基因VNTR的研究，我又有機會學到更多全新的實驗技術和方法。近年來，我們課題組也在開展1型糖尿病相關基因多態性的研究，若我們能將實驗結果共同分析，將有助於探討1型糖尿病發生的分子機制以及早期干預。待我學成回來，我們課題組將在此基礎上進一步開展1型糖尿病發生機制及干預方面的研究，為我們今後開展1型糖尿病胰島幹細胞移植和口服藥物的開發提供理論和實驗依據。

再次祝賀香港回歸祖國十周年，祝賀鄭裕彤博士獎助金成立十年！

**Dr YANG Fang, RA, Department of
Obstetrics & Gynaecology**

(2007/2008)

鄭裕彤博士獎助金對我而言，既是榮譽、是動力、更重要的是責任、是使命。肩負南方醫科大學珠江醫院婦產科的希望，我會加倍努力，學成後更好地為醫院和病者服務。
